Beulah Pushes Havoc 160 Miles Into Texas

Episcopalian Bishops Okay Plan For Union

SEATTLE (AP) — Episcopal participants in the consultation on church union today had a go-ahead from their bishops to proceed with the drafting of a specific plan to unite their church with nine other major denominations.

The move could add a practical dimension to the talks, which so far have been confined to working out a consensus on basic principles rather than on a definite blueprint.

Assessing progress already made on principles, the bishops called it a "significant advance toward Christian unity in matters of doctrine, worship, sacraments and ministry, which have long divided loyal followers of Jesus Christ."

Most of the other churches involved already have authorized their delegations to begin putting the fundamentals into a framework. However, the Episcopal team, along with Methodists, have lacked clear-cut sanction to do so.

The green light from the bishops was subject to concurrence by the lay-clergy branch of the church's bicameral legislative convention, which is meeting here. It is the ruling body for the nation's 3.5 million Episcopalians.

The bishops Wednesday also approved a policy welcoming all baptized Christians—Protestant, Roman Catholic and Orthodox—to receive communion in Episcopal churches where their own churches permit it.

Episcopal practice has varied on the point, with some parishes inviting members of other churches to share communion, and others restricting it to confirmed Episcopalians.

In authorizing development of the 10-denomination union plan, the bishops directed the Episcopal ecumenical team also to pursue closer relations with communions not involved in the talks—Roman Catholics, Lutherans and Orthodox.

Other denominations involved are Methodists, United Presbyterians, the United Church of Christ, the Presbyterian Church U.S. (Southern), Christians (Disciples), Evangelical United Brethren, Christ, African Methodist Episcopal Church, African Methodist Episcopal Zion Church, and the Christian Methodist Episcopal Church.

N.Y. Teachers Reach Accord

NEW YORK (AP) — Tentative agreement on a reported \$135.4-million wage package has apparently ended the teachers' strike that kept many of New York City's 1.1 million public school pupils out of class for eight days.

Both school officials and union leaders said after the agreement was reached Wednesday, they hoped normal operations in the nation's largest school system could begin on Monday.

A spokesman for the striking AFL-CIO United Federation of Teachers local said picket lines would continue until the full membership ratified the contract. A mass meeting for the purpose is expected Sunday.

Weather

ESCANABA AND VICINITY—Partly cloudy, windy and much cooler today, high near 64. Fair and quite cool with chance of frost tonight, low near 37. Friday, sunny but cool. High yesterday, 71 and low overnight, 51. Saturday outlook: increasing cloudiness with late afternoon or evening showers, northerly (10 to 20 mph) and gusty today. Precipitation probabilities: today, 10%; tonight and Friday, 5%.

GOV. GEORGE ROMNEY (left) of Michigan, a possible challenger for the Republican presidential nomination next year, chats with Henry Armstrong, a one-time world lightweight, middleweight and welterweight champion. They met as Romney toured the Herbert Hoover Boys Club in St. Louis. Armstrong works at the club. (AP Wirephoto)

Romney Rejects Tour Criticism

MILWAUKEE, Wis. (AP) — Gov. George Romney, continuing his tour of big cities, says he's "absolutely indifferent" to any adverse political consequences resulting from his display of concern for those living in slum neighborhoods. The Michigan governor who faced two racial confrontations Wednesday, told a Milwaukee news conference racial problems and city violence are this country's major problem.

Romney arrived in Milwaukee on his tour of urban areas. But there were no plans for him to meet the Rev. James E. Groppi, who has been leading demonstrations for an open housing ordinance. Father Groppi left Milwaukee Wednesday for an appearance in Washington before the president's commission on civil disturbances. Milwaukee's Mayor Henry Maier decided to give a speech out of town so will not be available for any conference with the governor of Michigan.

Face Tough Questions Romney, an undeclared candidate for the Republican presidential nomination, was barred Wednesday from entering a private welfare organization in a Puerto Rican neighborhood in Chicago—and then faced some tough questioning from Negro militants who wanted to know what he would do for them if he was ever elected president.

Race Disorders Hit Columbus

COLUMBUS, Ohio (AP) — Store windows were shattered along a six-block front and three persons were injured slightly in a disorder in the East Side Negro section Wednesday night. About 200 police, armed with shotguns, tear gas and nightsticks, restored order after several hours. One of the injured was a policeman hit by a rock. The others were Negroes.

In another Ohio city, Dayton, police arrested about 50 persons—mostly teen-age Negro youths on disorderly conduct charges—during a second straight night of disturbances.

One fire was reported during the trouble on Dayton's West Side Wednesday night. There was also some window breaking, looting and vandalism in the area, where 131 arrests were made Tuesday night.

The Columbus disturbance broke out near a building picketed by 10 persons who claimed the owner refused to rent space to the Congress of Racial Equality.

Safety Director Fred Simon said less than 40 persons caused the trouble but at one time more than 1,000 milled in the area about a mile from the heart of downtown Columbus. Twenty three Negroes were arrested.

13-Day Storm Adds Six Lives To Death Toll

CORPUS CHRISTI, Tex. (AP)—Waning Hurricane Beulah surged farther inland today, leaving hundreds of square miles of death, destruction and growing floods in her wake.

The monster storm's main track stretched 160 miles into Texas from Brownsville, the coastal point where she first raged ashore Wednesday.

Curving on a more westerly course as she advanced, Beulah finally dropped below minimum hurricane force—75 miles per hour—early today.

Floods boiled up along rivers and creeks faster than harried disaster relief officials could keep track of them.

The small city of Alice, 40 miles west of Corpus Christi, was deluged by 7.23 inches of rain. Victoria, about 100 miles north of Corpus Christi, recorded 8.30 inches. Other towns and cities in the storm area recorded rains in two-digit figures, topped by 13.80 inches at Tuleta, 70 miles northeast of here.

A 13-day-old storm that began in the Atlantic, Beulah claimed 30 lives—six in Texas. Eighteen died in the Caribbean and the rest perished in Mexico's southern regions.

Flooding plagued the southern half of Texas and threatened to be a major problem for days. The rains showed no signs of abating as Gulf of Mexico tides swept headlong up river beds and collided with flood waters from Beulah's rains.

In an unprecedented move the State Department announced through Texas officials at Austin that the United States and Mexico had declared a disaster area along the border Rio Grande.

"The U.S. Immigration service is to open the international border and it is to remain open until further notice," a Texas spokesman said.

Damage In Mexico Brownsville's sister city of Matamoros, Mexico, sustained heavy damage from Beulah, as did Reynosa, Mexico, just across the river from Edinburg, Tex.

The Coast Guard was dispatching three amphibious airplanes from Corpus Christi today to survey damage in the storm's main track.

Tornadoes dealt damage in the millions of dollars. A final accounting of the storm's monetary harm was days—or possibly weeks—away.

Electrical power was shut off to about one-fourth of the Texas land mass. Brownsville was the hardest hit city in the state. Beulah screamed ashore there with 160 m.p.h. winds and rains too heavy to measure.

Residents Flee Hurricane force winds continued at Alice, a city of 23,000 some 40 miles west of Corpus Christi. Downtown businesses were flooded as were most

THE FORT BROWN MOTOR HOTEL at Brownsville was heavily damaged by wind and water brought by hurricane Beulah to the Texas Gulf coast. The storm was responsible

for 30 deaths and millions of dollars in property damage. (AP Wirephoto)

B52s, Big Navy Guns Pound At DM Zone Reds

SAIGON (AP) — Continued North Vietnamese shellings across South Vietnam's northern border killed six more Marines and wounded 41, and U.S. forces went after the Red gunners with B52s, Marine fighters and big Navy guns today.

While the battle of artillery, mortars and bombs raged around the U.S. Marine outpost at Con Thien, just below the Demilitarized Zone, men of the Queen's Cobra Regiment of Thailand began arriving to fight around the Saigon area.

The U.S. Command also announced last week's casualties—236 Americans killed, mostly in the war of attrition along the DMZ. Communist losses were put at 1,744 killed. The South Vietnamese said they lost 215 dead.

The number of U.S. combat deaths last week dropped slightly, but the wounded toll rose sharply.

Last week's figures compared to 242 dead, 1,490 wounded and 7 missing for the previous week ending Sept. 9.

Eight-engine B52 bombers went back for two pre-dawn raids near Con Thien today after they and jungle-skimming fighter-bombers tried to pinpoint the Communist firing positions and destroy them Wednesday.

Foul weather hid the enemy, who opened up with another barrage, hitting the Marine positions with more than 300 rounds of artillery, mortar and rocket fire in the last 24 hours.

Some of it came from Soviet-built 152mm guns as far as 15 miles away.

The B52 attacks today were aimed at suspected Communist troop concentrations, rocket positions, bunkers and trench networks with 2.5 miles of Con Thien, both to the west and to the north in the DMZ. The B52s have hit the DMZ 67 times since mid-August.

Goldberg Asks Help Of U.N. For Peace

UNITED NATIONS, N.Y.

(AP) — Ambassador Arthur J. Goldberg today asked North Vietnam for a definite and specific statement as to whether a halt of U.S. bombing would lead to meaningful negotiations without advantage to either side.

In a major policy speech before the 122-nation U.N. General Assembly, the chief U.S. delegate reaffirmed that the United States favors peace talks and is willing to negotiate at Geneva or elsewhere.

He appealed to all U.N. members collectively and individually to aid in the search for peace. He also reaffirmed the U.S. belief that the United Nations has responsibilities under its charter to take a hand in the Vietnam problem.

Goldberg noted that Hanoi has indicated a cessation of the bombing "could" lead to nego-

tations but he said that Hanoi has not made a definite commitment nor has any of its allies "conveyed to us any authoritative message from Hanoi that there would in fact be negotiations if the bombing were stopped."

"We have sought such a message directly from Hanoi without success," he said. "On its part, the United States would be glad to consider and discuss any proposal that would lead promptly to productive discussions that might bring peace to the area."

He then asked: "Does North Vietnam conceive that the cessation of bombing would or should lead to any other results than meaningful negotiations or discussions under circumstances which would not disadvantage either side?" Goldberg dealt with a wide

range of world problems, including the Middle East, but his main stress was on Vietnam.

He asked North Vietnam's allies, presumably including the Soviet Union, "what would they do or refrain from doing, and how would they then use their influence and power" to bring peace if the United States halted the bombing of North Vietnam.

"Constructive answers to these questions would aid in the search for peace," he said.

Today's Chuckle

Families with a fireplace say there is nothing like the first fire of the season. The second one, when you remember to open the damper, is much duller.

Joblessness Spreads To Ford's Suppliers

DETROIT (AP) — Economic side effects of the United Auto Workers strike against Ford Motor Co. are mounting, and the diagnosis is that they'll get much worse.

Already hundreds of jobs in supplier factories and in transportation have vanished, along with 160,000 at Ford plants across the country.

As the strike enters its third week today, industrial spokesmen say that henceforth for the walkout's duration layoffs elsewhere likely will be accelerated.

Bannon Pessimistic And there was a prediction Wednesday from Ken Bannon, chief of the union's Ford negotiating team, that the strike has at least six more weeks to run. Bannon, expressing hope he

was too pessimistic, estimated it will be another month "before the pieces start falling together" in negotiations of a new contract between Ford and the UAW. Then, he predicted, it will take another two weeks to fit all the pieces together.

Ford was struck at midnight Sept. 6 as three-year contracts ran out there and at Chrysler and General Motors. The UAW chose Ford as its target, hoping to use whatever it wins there as the pattern for subsequent settlements at Chrysler and GM, in that order.

The UAW struck in support of what it calls its "longest and most ambitious list of demands" in history, and it was over economic issues, including a demand for guaranteed annual income, that negotiations began. Since the walkout, Ford and

UAW negotiators have not returned to economic issues and are not expected to before next week, at the earliest.

While striking Ford, the union kept its members working without contracts in GM and Chrysler plants, which together employ almost 500,000.

The UAW International Executive Board meets in Detroit today to recommend a strike-supporting increase in union dues paid by UAW members still working. A special convention of the union is set for Oct. 8 in Detroit to act on the recommendation.

Meanwhile workers in the 25-state Ford empire began collecting strike benefits ranging from \$20 to \$30 weekly, depending on family size, compared with what the company says was an average weekly gross paycheck of \$155.83 last year.

Dirksen Called Best LBJ Friend

WASHINGTON (AP) — They're saying around the Capitol that Senate Republican Leader Everett M. Dirksen is just about President Johnson's most effective friend in Congress.

Just as he often pulls some of the President's coals out of the Republican fire of criticism on Vietnam war policies, Dirksen stepped in Wednesday to save Johnson's rent supplement program. It is a keystone in administration efforts to rehabilitate big-city slums.

To keep his opposition license alive, Dirksen lines up with House GOP leader Gerald R. Ford today for some partisan blasts at Johnson policies. There is a weekly performance for newsmen designed to spotlight issues for 1968.

But the President understands this kind of political skirmishing perfectly and before nightfall he may have the Republican leader on the phone, inviting him to the White House for a quiet discussion of the nation's problems over a sociable drink.

Dirksen provided the margin by which the Senate nailed in a pending money bill \$40 billion

Dirksen and flower image. (AP Wirephoto)

Blockade Plant

KANSAS CITY (AP) — United Auto Workers pickets kept management employees out of the strikebound Ford Motor Co. assembly plant in suburban Claycomo Thursday. One picket was injured slightly Wednesday shortly after the strikers began denying entrance to salaried workers, and a union official said the man was hit by a car driven by a management employee.

Bannon, who is the UAW's Ford Department director, was among those shifting to a strike benefit income status. Normally he makes \$19,250 a year, but as a family man he draws the top strike benefit: \$30 a week.

Industrialists say the punch of the strike would have been greater already, but while ordering shipments held up, Ford has not yet notified suppliers to hold up on manufacture of components for 1968 models, which go on display in dealer showrooms Friday.

Vendors calling on Ford have dwindled, and some express amazement Ford has not yet ordered a stop on previously placed orders.

Wis-Mich Given Bond Permission

LANSING (AP) — Wisconsin Michigan Power Co., a Wisconsin firm operating in Michigan, has been authorized by the State Public Service Commission to issue and sell \$12 million in first mortgage bonds. The firm proposes to use proceeds of the bonds for further spending in connection with its 1967 construction program.

Hematite Corp. Is Award Winner

The community industrial development corporation formed last spring by the Ishpeming Chamber of Commerce — the Hematite Development Corp. — is winner of the regional Community Achievement of the Year award of the 1967 Michigan Week, and now is being considered with other regional winners for state honors.

Announcement that the Ishpeming entry has been presented to the state committee was made by Keith Forsberg, deputy general chairman of the 1967 Michigan Week. Forsberg is director of placement at Northern Michigan University, Marquette.

Hematite already has brought a \$2 million foundry to Ishpeming, one which expects to be operating fully within 18 months. At that time, North-

ern Electric Foundry will employ 36 people directly and it is estimated another 30 will be employed by local suppliers. It is expected to be turning out 20,000 tons of steel castings a year when in full production, specializing in reworking metal from junked automobiles.

"We're not only bringing a productive new business to the state, but also will be helping clean up the State of Michigan," explained Jack Dell Angelo, vice president and secretary of Hematite, who is manager president of the Ishpeming Chamber of Commerce.

Hematite Development Corp. was formed in April as a non-profit corporation. Twenty-five local shareholders provided \$1,250 for initial operating funds. Residents of the community then subscribed \$90,000 and the corporation borrowed an additional \$350,000 from the federal government in order to construct the facility for Northern Electric Foundry west of Ishpeming. The foundry will occupy the facility, which now is under construction, on a lease-purchase basis so that Hematite eventually will have its funds returned.

Dell Angelo said Hematite is working on three additional projects. They are for new local housing, for a senior citizens housing project and for a new wood products plant.

Auto License School Sunday

Secretary of State James H. Hare and members of his staff will meet with about 60 branch managers and employees from throughout the Upper Peninsula in Escanaba on Sunday at 1 p. m. in the Chamber of Commerce Building.

The meeting is to acquaint the state's auto license office managers with new legislation affecting licensure and with procedures necessary in the issuance of titles and car license and truck plates for 1968.

Hare and his group will arrive from Lansing at Escanaba Airport at 6 p. m. Saturday and leave at 5 p. m. Sunday. With him will be Richard M. Cook, deputy secretary of state; Gordon Alexander, James M. Palmer and James F. McClure, assistant secretaries of state; Harley Neideffer, director of branch offices; James O'Connell, Branch Offices Association and William Thompson, regional chairman, Branch Offices Association.

Presbyterian Women Plan Autumn Supper

The first meeting of the United Presbyterian Women will be an autumn supper at 6:30 p. m. Tuesday, Sept. 26 at the church.

Chairman is Mrs. Jack Sprague and reservations may be made by calling her at 786-1218.

Mrs. M. H. Garrard Jr. is planning a discussion on "Changing Patterns in the Music of the Church." Panel guests will be David Laakso and Rev. and Mrs. Philip Lyon.

All women of the church and friends are invited to this evening of fellowship. Members are to bring their summer medical offerings.

FOR THE SECOND TIME in two nights, a fire severely damaged a building on Kalamazoo's racially-mixed northside Tuesday. The Millwork Supply Co. may have been the target of arsonists, authorities said. The blaze caused damage estimated at between \$100,000 and \$150,000. The previous night a shoe store was firebombed and heavily damaged and a nearby lumber yard was slightly damaged by fire. (AP Wirephoto)

HN Newspaper Highly Rated

An All American honor rating has been awarded the "Crusader" school paper of Holy Name High School, in the 77th All American Critical Service of the National Scholastic Press Association.

The All American rating represents superior accomplishment and is reserved for the top publications among the more than 1,000 annually entered in this service. Papers from all over the nation are judged by NSPA in groups divided by enrollment, frequency of publication, and method of printing.

Entries are judged in all areas of production from coverage through writing and makeup. The "Crusader" rated especially high in the areas of style, leads, inside news pages, headlines, printing, and captions.

The three issues of the last semester considered in the judging were under the editorship of Nancy Casey in February and May, and under Joani DeGrand in April. Sister M. Benilda is faculty adviser.

The "Crusader" has also received an All Catholic rating from the Catholic School Press Association.

Gladstone Files Housing Plans

GLADSTONE — The Gladstone Housing Commission has submitted a development program for a 50-unit elderly housing project to the U. S. Housing Assistance Administration, Chicago.

City Manager H. J. Hennikson said the commission was assisted in the preparation and submission of the necessary documents for the project by Nichols and Barone, Architects, Green Bay. A preliminary loan application had been previously submitted and is being processed.

Other phases to be submitted to the Housing Assistance Administration include a schematic design, a preparation of detailed plans and specifications, and an application for bids and preparation of contract documents.

Hennikson said the Housing Assistance Administration has been very helpful and prompt in processing documents as submitted.

"The Commission is confident that with continuing cooperation at the federal level contracts could be awarded in March, 1968, with construction starting in early April," Hennikson said.

Pilot Fee Raise Threatens Life Of Seaway Ports

WASHINGTON (AP) — Small Great Lakes ports and small shipping firms could be seriously harmed if a proposed hike in fees for ship pilots on the St. Lawrence Seaway is approved, a representative of the shipping industry said Wednesday.

Werner Burchard, executive secretary of the U. S. Great Lakes Shipping Association, told senators from Great Lakes states the increases sought by 85 U. S. pilots on the seaway would hike by 88 to 95 per cent the fees for guiding ships through the seaway.

Burchard said the same pilot fees are charged each ship regardless of size and a large rate hike could seriously cripple small shipping firms.

This, in turn, could affect ports on the Great Lakes which service smaller ships, he said.

Sen. William Proxmire, D-Wis., said the pilots had threatened a walkout if their demands for higher fees were not granted. Burchard replied this would not stop shipping. Ships would proceed without pilots, he said.

Burchard said seaway pilots netted \$16,000 to \$20,000 in fees last year with paid expenses ranging from 12 to 27 per cent of their gross salaries.

Burchard spoke at a meeting of the Great Lakes conference of senators to discuss Great Lakes-St. Lawrence Seaway problems.

Sen. Gaylord Nelson, D-Wis., said the quality of water in Lake Michigan was deteriorating rapidly and there were the "threats of destruction of Lake Superior."

A report presented to the senators by the Great Lakes task force urged a single set of water pollution standards for all Great Lakes ports and said only the federal government could act to set uniform standards.

Urging Rate Change
The task force urged repeal of a section of the interstate commerce act authorizing reduced rates for government cargo carried by rail or on highways.

The rates serve to divert traffic from the Great Lakes area to coastal ports, the report said. A proposal to repeal the section now is before Congress.

Thomas Wilcox, counsel for the task force urged lengthening of the navigation season on the lakes by at least 12 days.

Wilcox also called for passage of a bill before Congress to provide funds for seaway repairs and another measure to refinance the construction debt.

When the seaway was constructed, Congress provided that all costs, including construction, interest and operation, be paid for from shipping tolls.

Revenue Below Costs
However, revenue has not been sufficient to take care of all these costs and legislation has been proposed for the U. S. government to assume some of the obligations and ease the financial pressure.

The Great Lakes Conference of Senators headed by Proxmire, includes members of the Senate from Wisconsin, Minnesota, Michigan, Illinois, Indiana and Ohio.

Wilcox suggested the official day for closing shipping on the great lakes be moved from Dec. 3 to Dec. 15 on a trial basis.

This, he said, would permit 50 to 100 more freighters to operate on the lakes, Wilcox said he has been told that shipping could go on until Jan. 31.

Sen. Philip A. Hart, D-Mich., said a 1962 defense Department study showed that five million tons of military cargo could be shipped on the Great Lakes but in 1966 only 68,000 tons were moved. Hart said military cargo shipments this year through August totaled 140,000 tons.

Horsemen To Make Awards

All Upper Peninsula Horsemen's Association members are invited to the second annual awards dinner Oct. 1 at 2 p. m. at the Northwoods Club, Marquette.

Anyone who wishes to attend may also bring guests and should contact Mrs. Carol Sherbinow, County Road 440, Marquette. Reservations should be made by Sept. 23 if possible.

Trophies will be awarded all first place champions in halter, western pleasure, and speed events. Rosettes will be presented to first and second runners up in all events.

The Junior and Senior Good Sportsmen traveling trophies will also be awarded at this time.

Speaker for this special occasion will be Dr. D. V. Engstrom D.V.M. of Marquette, announces Nap Sharkey, president of UPHA of Perkins.

Tonnage Drops At Sault Locks

SAULT STE. MARIE — A combination of strikes and a general falling off in ship movements have all contributed to a sharp reduction in tonnage through the Sault Locks.

According to the August summary of traffic through the locks, issued by the Detroit District office of the U. S. Army Corps of Engineers, boats using the locks have carried almost 7 million fewer tons of cargo this year than for a similar period last year. This tonnage is for the entire season from April through August.

Tonnage through the locks as of the end of August this year was 57,770,303 compared to 64,518,022 for a similar period in 1966. The figures include tonnage through the Canadian lock.

Tonnage carried through the locks for the month of August was 11,685,309, lowest full month for the year. This year lock tonnages have averaged in excess of 13 million tons per month, and the drop was noticeably noted as soon as the Canadian seamen's strike was started last Aug. 17.

On the average about 50 vessels use the Sault locks each day. A reduction in the flow of traffic was noted early in the season, caused primarily by refusal of some of the Canadian grain handlers to carry grain cargoes because of a reduction of shipping rates.

As a result some of the smaller Canadian and American ships were taken out of service because of a scarcity of cargoes — notably in grain.

Lock authorities expect traffic may dwindle even more should the automobile strike spread beyond the Ford Motor Co. labor troubles.

Isabella
Mr. and Mrs. Elmer Blasier of Sturgeon Bay, Wis., were guests of Mr. and Mrs. Alfred Erickson. Mrs. Blasier and Mrs. Erickson are sisters.

Mrs. H. J. Neville has returned to her home at Minneapolis after spending the summer at her cabin at Isabella.

Birthday Party
Karen Goun, 10, and Glenda Goun, 7, celebrated their birthdays Sunday afternoon at the home of their parents, Mr. and Mrs. Francis Goun. A party table was set with cake and favors for their guests, who were Susan Lake, Gail Legault, Melody Landis, Timmy, Terry, and Randy Cayenberg, Lynn and Jackie Poupour, and Cindy Ritters. Also attending were their grandparents, Mr. and Mrs. Felix Cayenberg.

Cornell
A birthday party honoring Mrs. Alfred Dahl Sr. was held at her home recently. Guests enjoyed games and prizes were awarded to Mesdames: John Anderson, Alfred Dahl Jr., Warren Rose and Earl Aiken. A buffet lunch was served. Mrs. Dahl received gifts of money. Others in attendance were: Mrs. Robert Dahl, Mrs. Carl Frans, Mrs. Mary Backlund, Mrs. Henry Rose, Mrs. Wilfred Mattson, Mrs. Monroe Harrison.

Rummage Sale
Walter W. Cole American Legion Auxiliary 301 of Rapid River will hold a rummage sale Saturday, Sept. 30, from 9 a. m. to 4 p. m. in the post clubrooms in Rapid River. Lunch will be served. Anyone wishing to donate articles for the sale is asked to contact Mrs. Dorothea Johnson at 474-6664.

Planners Study Road Clearance

The Planning Commission discussed Thursday night with officials of the Chicago & North Western Railway the problem of clearance on an access road on the north bay shore but came to no decision.

The Commission will meet again Wednesday or Thursday next week for a further consideration of the question, and it is anticipated that a recommendation to the City Council will be forthcoming.

North Western Railway officials present for the meeting last night were Warren R. Wagner, Green Bay Division engineer; S. J. Owens, assistant chief-engineer-staff, and E. A. Burkhardt, assistant to the general manager, both of Chicago.

The North Western has announced that it will construct a new ore dock facility on the north bay shore. An access road to the area north of the ore dock will go beneath the new ore dock approach. It is the clearance on this road that is creating the problem.

The Planning Commission feels that a clearance of 11 or 12 feet is not sufficient, and that the standard 14 or 14½ feet is needed to provide adequate access to the industrial area in the future. The discussion continued for almost two hours last night.

John Dulick, city engineer-planner, said that it would be possible to lower the road grade to bring a 12-foot clearance on the access road.

Sheil Oil Terminal Manager Paul Bucholtz said that would be sufficient for most traffic they would have.

Dale Vinette, whose boat building operations are being moved to the north bay shore, said he would like to see a clearance of 14 or 14½ feet. The Planning Commission, with Chairman Matt Smith presiding, also indicated in the majority that it favored a full standard clearance.

Hippocratic Oath
The oath taken by doctor was named the Hippocratic Oath for the famous Greek physician, Hippocrates, who lived about 400 years before Christ.

FISH FRY FRIDAY At Polvin's Tavern Schaffer, Mich. Sea Food, Chicken, Steak Food Served Friday, Saturday and Sunday, 5 to 11 p.m.

VISTA Finds Ready Response From Teens

By MRS. ALBERT WELDUM

ROCK—Two young men are bringing VISTA (Volunteers in Service to America) to this community and there are mixed reactions.

The teens say that VISTA is doing for them what they haven't been able to do for themselves in the past. Others say it is one of the better things happening here.

Still others think it gives the community a "poverty feeling."

All in all, it seems to be working out very well, and as for VISTA workers John Cooney, 23, and Ted Hilfiker, 18, they feel the community response has been friendly and helpful.

"We feel that being in VISTA is an invaluable experience, and our hope is that the program will be equally valuable for the people of Rock," they said.

They will be in Rock for a year. Both are recent graduates of VISTA training at Northern Michigan University, Marquette.

There have been some changes noted here since they arrived a month ago. There's a successful teen-age dance program, with music by "live" bands, which the young people welcome. With the assistance of VISTA a teen-council will be formed with the idea that the activities will be continued in the future.

Senior citizens interests are not being overlooked. A center where older people may meet and enjoy a cup of coffee (plus a method of transportation for them) is being con-

sidered, to help combat the lonely life some of them experience.

Cooney's home is in Washington, D. C., and he is a graduate of Mount Saint Mary's College in Maryland, where he received his AB degree in English-philosophy. He has an older brother, James, stationed in India with the Peace Corps as an agricultural specialist. James was for two years a teacher in Tunisia.

Hilfiker comes from Ellicott City, Md., and he graduated from high school in June this year. His father is a minister and he is one of seven children. His hobbies include playing the guitar and doing some composing—but he also likes sports, hunting and fishing. After VISTA he plans to enter college. Both young men were Boy Scouts.

How did they find their way to Rock? It began with a request for VISTA volunteers. Then John and Ted, in training, expressed a wish to serve somewhere in the Midwest. The invitation came from Rock—and they came here.

They are impressed with the clean countryside and the pure air and water, comparing it to conditions elsewhere. And they look forward to the winter season, when they hope the snow will pile deep enough for them to enjoy skiing and other winter sports.

But largely they anticipate carrying out the objectives of VISTA—the most personal part of the nation's war on poverty and the domestic counterpart of the Peace Corps. They have directly assisted some families, they are serving cooperatively in some of the school programs, and they look forward to doing more as the weeks and months go by.

University of Maryland will open a women's honor dorm this fall.

ANN ARBOR (AP) — The National Center for Air Pollution Control will meet Sept. 27-28 in Ann Arbor to discuss federal and state programs to control air pollution from motor vehicles.

About 100 control and vehicle inspection officials from around the nation are expected to attend. The meeting will include the first public tour of the center's Motor Vehicle Compliance Test Laboratory in nearby Ypsilanti.

Muskie Planting Put 14,171 In Peninsula Lakes

A total of 14,171 muskies have been released in 8 lakes in the Upper Peninsula this summer. The fish, 5.7 inches to 7.7 inches in length, were transported to the U. P. lakes by tank trucks from the Wolf Lake Hatchery near Kalamazoo.

The lakes and the number of muskies released follow:

Caribou Lake, Chippewa County, 3,746.

Iron Lake, Iron County, 3,000.

Crooked Lake, Schoolcraft County, 2,000.

Indian Lake, Schoolcraft County, 2,200.

Sheldrake Dam, Chippewa County, 2,000.

Eel Lake, Gogebic County, 250.

Moraine Lake, Gogebic County, 750.

Moosehead Lake, Gogebic County, 225.

A convict may refuse a conditional pardon by declining to accept the conditions.

Sniper Death Penalty Asked

LANSING (AP) — A Democratic state representative said here that results of a survey have caused him to ask that legislation be drafted requiring the death penalty for sniping during a riot.

Rep. E.D. O'Brien said 79 per cent of those responding to a recent questionnaire agreed that the Legislature should provide the death penalty for persons convicted of sniping during a riot.

O'Brien said he would introduce the legislation in the 1968 regular legislative session. He said the first 1,920 questionnaires returned in July and August indicated the following opinions on the part of persons in his district:

—99 per cent believe the increase in violent crimes is a major problem and 97 per cent think the problem should be considered in the October special legislative session.

—94½ per cent think penalties for violent crimes should be increased and 98½ per cent are opposed to reducing penalties for such crimes.

State's Autumn Color Show Is Right On Time

LANSING (AP) — Michigan's annual autumn leaves color show is getting under way right on schedule, the State Tourist Council reports.

Leaves on low-growing sunnys are turning red in the western Upper Peninsula and the larger leaf-shedding trees are beginning to show some color, the council reported.

However the first good viewing is not expected until the last week of September, with the color change gradually moving southward until early November. The color ordinarily reaches its peak in early October in the Upper Peninsula, mid-October in the northern Lower Peninsula and late October in the southern third of the state.

The tomb of Mohammed is in Medina, Arabia.

Goldwater And Gregory Signed For NMU Series

Lectures by Bishop James Pike, Dick Gregory, and Barry Goldwater will headline the 1967-68 lecture-concert series at Northern Michigan University, Marquette.

The public series will begin Sept. 26 with a lecture by author-historian A. L. Rowse and will conclude May 28 with a faculty recital. Most programs are free of charge.

Bishop Pike, one of America's most controversial clergymen, will appear at NMU Oct. 9. He has been a staff member of the Center for the Study of Democratic Institutions, Santa Barbara, Calif., since resigning last year as head of the Episcopal Diocese of California.

Gregory, well-known Negro comedian who has become a leader in the civil rights movement, is scheduled to speak on "Civil Rights and Black Power" when he appears here March 5.

Goldwater, the Republican Party's 1964 presidential candidate, will speak at Northern April 30.

"The Lettermen," popular folk-singing recording artists, will present NMU's homecoming concert Oct. 5.

Other concert highlights include appearances by the Choir of Finnish Cantors Oct. 16 and the National Yugoslav Folk Ensemble Feb. 26.

Hermansville

Demonstrating Change

When the federal government created the Appalachia project to help a big depressed area in the Southeast it started something.

Immediately other parts of the country which weren't boiling with affluence said: "How about us?"

Congress got around to them and as a result there are a number of "Little Appalachia" projects around the country. One of them is the Northern Great Lakes Regional Commission. It hasn't, like Appalachia, been given more than a billion dollars to use for regional economic development but it's hopeful that next year Congress will start a flow of federal money to it for that purpose.

The Upper Great Lakes Regional Commission is composed of the governors of Michigan, Wisconsin and Minnesota and the federal co-chairman, Thomas Francis of Washington.

When the commission met recently during the national governors conference in Arkansas it decided that it shouldn't wait for final funding by Congress and the Legislatures, but should divert some of the planning money available to it to use in demonstration projects to be started at once and to be completed in a year. These projects would demonstrate how federal funds could be spent effectively to trigger private investment for regional development.

Minnesota proposes an iron ore beneficiation demonstration project. Wisconsin proposes a project to demonstrate how dying lakes can be reclaimed. Michigan is now in the process of developing a project and a meeting of the Michigan Advisory Task Force to the UGLRC at Ishpeming favored demonstrating how a collective forest program could stimulate the region's forest industries.

The proposal as outlined in brief by Dr. Carl Moyer, director of research at Michigan Tech, Houghton, suggests:

1. Creating a "collective forest" project area in which all land ownership would be pooled and treated as one for management, harvest and marketing. "This would bring small owners into the mainstream" of the wood industry economy and help solve a problem of how to make the third of Upper Michigan's forests in small private ownerships more productive and profitable.

2. Producing substantial timber volumes in relationship to existing inventories. In other words, not to harvest large volumes of species that are already in surplus supply, nor to neglect harvest of species in short supply. Wood industries already do this, but not in a widely coordinated way.

Pooling of timber harvest is done in the South, and there are wood complexes there that take all the cut from an area and apportion it out among markets, but these are usually captive operations of big paper mills, and other industries.

3. Investigating timber harvest techniques in U. P. fogging problem areas. This phase could bring in sophisticated new wood harvest machinery which is so expensive that it must be operated on a 24-hour, all-year basis and this calls for large scale operations like the collective forest concept.

The endorsement of Tech's umbrella project for wood industry was general, but it is the child of the government agencies and so regarded by representatives of wood industries. They are sensitive to any suggestion for cooperation that may result in government charges of collusion on wood pricing after having spent millions of dollars in recent years in Michigan and Wisconsin to defend themselves against federal charges of price fixing.

If there is anything that the Michigan Advisory Task Force agrees upon it is the concept that if there's to be economic development in the Upper Great Lakes Region it must come basically from private investment. The demonstration project may explore the usefulness of a marshalling yard, which could be turned over to private ownership.

The basic aim is to remove the known inefficiencies in the operation of little woodlands, little mills and little logging, erratic resource usage and small volume sales of wood and wood products.

To accomplish this federal money would be spent in a demonstration of new ways of appraising, harvesting, marketing and milling the wood to add value to all the processes.

Wood industries look at it with the thought that the present system, with all its shortcomings, works for them. The project effort is to create a demonstration that will make it work even better for them and that will also benefit others. This will take some doing, but it appears that it may get a trial.

Mrs. A. G. Wilson Burial Saturday

DETROIT AP—The body of Mrs. Alfred G. Wilson will be brought to Detroit from Brussels, Belgium, for services Saturday morning.

Mrs. Wilson, 83, died in Brussels Tuesday, apparently of a heart attack.

She had been the wife of auto pioneer John F. Dodge and, after Dodge's death in 1920, married lumberman Alfred G. Wilson in 1925. He died in 1962. Mrs. Wilson inherited \$44 million when Dodge died, making her one of the wealthiest women in the nation.

In 1940, she served briefly as Michigan's first and thus far only woman lieutenant governor and, in 1957, she made a \$10 million gift that led to the founding of Oakland University near Rochester, a Detroit suburb.

BARBS

By PHIL PASTOREK
The fellow who thinks of nothing but "getting ahead" might possibly benefit from a new one.

Those who applaud conventional behavior haven't attended a business shindig recently.

No, Gwendolyn, a "mushroom" isn't the visitors' lounge at the nursing school.

THIS MOCKUP of the controversial SST, shows, in triple exposure, one of the sleek plane's outstanding features — the variable sweep wing. It is claimed that variable sweep will make possible a speed of 1,800 m.p.h. while swept back in flight and, in extended position, match the speed and lift of today's airliners.

Wisconsin Senator Wants Super Transport Restudied

By DAVE BURGIN

WASHINGTON — (NEA)—Buried among Sen. William Proxmire's dozen reasons why the super-sonic transport (SST) project should be reevaluated, maybe even scrapped, is the ultimate question of just who is going to get on the thing.

Proxmire, D-Wis., has devoted considerable energy the past six months toward having Congress and the country take a new and hard look at the \$4.5 billion program under contract to Boeing Aircraft.

But he has been virtually a voice in the wilderness, charging foremost that the SST is far too expensive right now when the country is headachd with the Vietnam war and urban priorities.

Further, he argues that the project is little more than American "bigger and better" vanity, that it is being forced upon air travelers, that it is so big it will cause sudden airport remodeling problems and so fast it creates enormous sonic boom difficulties.

To date, what little reaction Proxmire has received has been negative, mostly from Senate colleagues whose states (California, Washington, Ohio) are strongly affected by various parts of the aircraft industry, or by people who merely dislike Proxmire. "You're in the way of progress," they say.

He has shown a reluctance, however, to harp on the one aspect of the SST project which would attract plenty of attention—safety.

"It might be hitting below the belt," Proxmire said, "because the American aircraft industry is most assuredly safety-conscious."

"But with the SST we're suddenly transformed into the area of commercial flight of which almost nothing is known. Already the industry is gearing for supersonic commercial flying and we're nowhere near the first test flight."

"There's a precedent here, I believe. Some aeronautics authorities suggest that today's air safety problem is partly due to the introduction every year or two of new transports, each bigger and faster than preceding models and each requiring new handling techniques."

"We haven't mastered the problem of safety in the air at subsonic speeds, yet we're pulling ahead with construction of a supersonic transport that will only magnify the problem."

While safety is, in fact, the "ultimate question," Proxmire admits "a certain reluctance" to make safety an anti-SST rally cry now because safety doesn't become a factor until the plane goes into service, some five years hence.

"The overriding concern now, in light of other priorities, should be the burden on the taxpayer," Proxmire said, wagging a warning finger over his desk. "And this project, I remind you, is 85 per cent supported by federal funds. The taxpayer pays for it twice—now, as it is being built, and later when he rides it."

"This thing could be fabulously successful, cutting air time in half with an 1,800-mile-an-hour trip across the Atlantic. Or it could be a colossal white elephant because of technical and economic

Senator Proxmire

problems (sonic boom and high ticket costs) and the safety question."

"Who wins? The industry. It can't lose, since the government is picking up most of the tab. Who loses? The public, any way you slice it."

In going easy on the safety question, Proxmire is also trying to avoid charges he is, as he put it, "playing propaganda games."

"The whole aircraft industry currently is putting out reams of propaganda to condition the public," Proxmire said.

"We're overwhelmed by it, newspapers particularly. 'As you might expect, the industry plays it clever on the safety factor, knowing full well there is much to be learned about traveling commercially at those speeds, at those heights, taking off and landing at untested airports.'"

On this point, Proxmire is fond of saying, "If propaganda could fly a plane, America's supersonic airliner probably would be flying by now."

Still, Proxmire, the sleek physical fitness buff who runs three miles to his Capitol Hill office each morning, makes it clear he could begin to hammer on the SST safety issue "if the President and the Congress don't start paying more attention to fiscal priorities instead of trying to conquer all worlds at once."

In the classic when-man-bites-dog-it's-news vein, a 26-year-veteran commercial pilot made news over the NBC-TV special "Aviation Revolution" not long ago when he said of the SST, "I not only don't want to fly it, I don't even want to ride in one."

"Me neither," added Proxmire, with no trace of a smile. "A few more testimonials like that and we certainly will have the public taking a second look at the SST."

You have already noticed that with diamonds breaking evenly there was no defense against a diamond slam.

The kibitzers asked the Hog about this.

He replied, "Of course the diamond slam was on. I didn't know it when I jumped to three no-trump. Ordinary players would have bid two or maybe three diamonds with my hand but I am a hog and proud of it. Anyone could make six diamonds. Only I could make three no-trump."

Certain standard trick hands that are used in every book on play "Bridge in the Menagerie" is essentially a book on play, so many of these trick hands appear.

Today finds the Hideo Hog struggling with an impossible three no-trump contract after typical hogish bidding. He has only eight tricks after West's opening heart lead. See if you can find the trick play that produced his ninth.

He ducked one heart, took the second heart and led the suit right back. West proceeded to cash all his hearts. A really smart West might not have cashed the last one but Hog's opponents aren't supposed to be smart.

The Hog discarded two diamonds from dummy and one from his hand. With four tricks in West shifted to a spade. The hog won in dummy and led a second spade to his queen. Then he cashed his ace of spades. West had to discard and the last thing he would do would

People, Events Of Yesteryears

From the Files of the Escanaba Daily Press

25 YEARS AGO

Boy Scouts and the Escanaba Daily Press, cooperating with the Escanaba Salvage committee, joined in the Key Collection Campaign, sponsored by the Paper and Twine Club of America, which began recently. The Scouts distributed key-rings throughout the city, in which people are asked to leave their old unwanted keys. Proceeds of the sale of the keys to junk dealers will go to the Red Cross and USO.

50 YEARS AGO

"Escanaba Day" was observed at the Cloverland Farmer's Fair held in Menominee, with hundreds of Escanaba people attending the festivities. The Rev. Father Barth gave an attention-drawing speech about the war.

25 YEARS AGO

Henry "Hank" Olmsted has returned from Sask. Can., where he pitched and won several baseball games for the city's team in a championship series played there a few weeks ago.

Newspaper Want Ads are a big sell! One billion, twenty-one million was spent on classified ads last year... more than for all magazine advertising combined and more than 300 million more than radio advertising.

Letters To Ann Landers

The Press

A number of days ago, the Press carried an advertisement by a local retailer which I feel is a new standard of local advertising. It was an ad by the Fair Store which described no wares for sale but was an appeal to youth to get "a man-size education."

The text of the ad stated that the school dropout ends up with a boy's education and will probably have to be satisfied with a boy's job at a boy's pay.

As a person who has dedicated my life and career to the education of youth I was impressed by the reading of this ad. I feel congratulations are in order for the management of the Fair Store for sponsoring this type of advertising.

Luther M. Barrett
Superintendent of Schools

HOT LUNCH COSTS

We were concerned to hear of an \$8,000 deficit on the School Lunch Program. This facility should definitely be self-sustaining.

Superintendent of Schools Luther Barrett, in a phone conversation, confirmed the number of students participating in the school lunch program of 1,500 per day and there are about 172 school days per year. This would result in a total number of 258,000 hot lunches served during the school year.

It is simple arithmetic to take the \$8,000 deficit and divide by the number of meals (258,000) and arrive at a deficit per meal of only .035 (three and one-half cents).

Therefore, if the cost per school lunch was increased only \$.05 (five cents) per meal, this would not only eliminate a deficit in the future, but provide a profit of \$3,870 per year, which could be used as a cushion to absorb expenses such as free lunches, replacement of equipment, etc.

Bernette Miller
1645 S. 16th St.
Escanaba

SOME OTHER METHOD?

With the closing of the Hot Lunch Program in school many questions have popped up among our friends. What will happen to large quantities of food on hand in the school system? How long will the meat be stored in the lockers? Where will the surplus commodities go that were delivered during the first school week? Does the School Board "cut off its nose to spite its nose?" It would seem so! Because in real life we have to face-up to failure and try some other method to procure success.

Wasn't the Hot Lunch Program started to provide nutrition found to be necessary for a child to give of his best? Then how can you explain the justification for this act just because the functions and costs have gotten out of hand. We might be willing to vote in extra millage if proper usage was given to monies now received and if we were not forced into giving of our own livelihood in support of growing demands on the school system.

Yes, our children are entitled to the "best" in education but to receive the best they should not have to be subjected to this type of bargaining. "Two wrongs" never make a right!

Hot Lunch Programs have functioned successfully as self-supporting on fees charged for the lunches in lots of locales. If you check with the Cornell Township before it joined the Escanaba Area you will find this true. And they operated on 15 cents a day! Prices have gone up but there are ways of combating expenses to provide a "hot" lunch for our children. These ways should be checked out instead of admitting defeat.

Mr. and Mrs. Carl E. Wight
Gladstone, Wis. 1

Time To Trade Up To Better Friends

Dear Ann Landers: My boy-friend and I are both 17. We got into a jam last May because he kissed me good-bye on the school premises. (It was three o'clock in the afternoon.) The lecture went something like this: "There is a time and place for everything."

A few weeks later we parked along a well-lit road about 10 p. m. to talk about our future. A squad car came along and the police asked us what we were doing. We said we were talking about our future. The policeman ordered us to "get moving."

Last night we went to a public park and spread a blanket out under a tree so we could talk about life. About 20 little kids who were on a camping trip began to pester us. They circled around yelling, "Lovers, lovers, kiss, kiss, kiss!" After 15 minutes we left.

If there is a time and place for everything, please tell us where is the place for teenagers to have a nice, quiet conversation.

— INVADERS PRIVACY

Dear In: Do you have a home? A living room, a parlor, or a front porch are all good places to talk about life. And if you are sitting on a park bench, your chances for privacy are better than if you are lying down. There are also coffee houses, sandwich shops and snack drive-ins. The list is endless. Be my guest.

Dear Ann Landers: Most of the steaming hot weather is over but there are still a few scorches ahead. So please print this letter.

Too many people think they are being kind to their dogs when they take them on shopping trips to town. Most stores do not allow dogs, so the poor animals are locked up in unbearably hot automobiles for two and three hours at a time. The average car can build up heat to 140 degrees in a half-hour. A dog cools off by radiation, without any evaporation. In a hot car there is no place for the dog's heat to go. He could die.

People do not realize they are being cruel to their pets when they keep them cooped up this way. If any of your readers come across pets who are trapped in overheated cars, please call the Humane Society at once. — ONE WHO LOVES DOGS

Dear One: I have seen pets crying and jumping about frantically in parked cars but it

never occurred to me that they might be suffocating from the heat. I thought they were merely unhappy at being left alone. Thank you for making me wiser.

Dear Ann Landers: My husband and I like our future daughter-in-law very much. We have always treated her like one of the family. Donna has had dinner over here dozens of times. We invited her to our vacation cottage last summer and again this spring.

Yesterday a friend said to me, "I hear your son is marrying Donna. I do hope everything works out all right." I asked her what she meant. She answered, "Donna told my daughter she is very much in love, but she can't warm up to her future mother-in-law."

I am so shocked and hurt I don't know what to do. I had planned a pre-nuptial party for Donna but now I don't have the heart to go through with it. In fact, I don't even feel like going to the wedding. Please advise me. — CRUSHED

Dear C: I don't know what kind of friends you have, but if this woman is an example, I suggest that you start trading up.

A person who would make such a cutting remark is vicious. She could also be a liar — or guilty of gross exaggeration. One thing is certain, she is no friend. Write off the comment and carry on as if you never heard it.

When romantic glances turn to warm embraces is it love or chemistry? Send for the booklet, "Love Or Sex And How To Tell The Difference," by Ann Landers. Enclosed a long, stamped, self-addressed envelope and 35c in coin with your request.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper, enclosing a stamped, self-addressed envelope. Copyright 1967, Publishers-Hall Syndicate

Hado's They'll Do It Every Time

CARD Sense

Q—The bidding has been:
West North East South
Pass 1♣ Pass 1♠
Pass 4♣ Pass 4NT
Pass 5♥ Pass 5NT
Pass 6♥ Pass ?

You, South, hold:
AK 9 A J 5 4 4 A Q 4 3 4 Q 3 2

What do you do now?
A—Bid six no-trump. Your partner made the initial slam try. He should have something more than just the ace and king he has shown you. If his extra is a five-card club suit with the jack, you have enough for six no-trump; if it is the queen of hearts, you have enough for seven hearts.

TODAY'S QUESTION

Instead of rebidding one heart, partner rebids one no-trump. What do you do now?
Answer Tomorrow

Stunting Plane Crashes; 3 Die

LANSING (AP) — Three men were killed Wednesday when their light plane crashed on a hilltop during an acrobatic roll and spun into a farm field within 50 feet of spectators.

The victims were identified as Robert Oswalt, 44, of Vicks-

burg, and two men from Mendon—Charles L. Osgood, 42, and Joseph C. Riley, 47.

The plane, officers said, had come to Lansing from Vicks-

burg to review farm machinery displayed by a manufacturer near Danville, 20 miles south-

east of here.

Gordon Lovell, of Charlotte, a private pilot, said he and about 100 other persons were watching as the plane took off from a stubble field, climbed to about 200 feet and made an 180-degree turn.

The single-engine craft, a Ryan-Navion, swooped back upside down above the crowd, hit a hilltop and nose dived into the field, bursting into flames and throwing out the passengers.

None of the witnesses were injured.

Special Board Helps Disabled Return To Work

LANSING (AP) — A special disability review board to help return disabled state workers to employment in state jobs has been created by the State Civil Service Commission.

Creation of such a board had been urged by State Personnel Director Franklin K. DeWald who told the commission the state's record of rehabilitating workers was "most unimpressive."

The commission said Tuesday that recent studies show the cost of workers' compensation payments to state employees increased 240 per cent in the last 10 years while the number of employees increased only 38 per cent.

The seven-member board will meet every three weeks to consider placement possibilities for injured state workers who are drawing workmen's compensation and who have a doctor's recommendation that they return to some form of work commensurate with their partial disability.

PanAm Walkout Lasts 12 Hours

WASHINGTON (AP) — Pan American World Airways was operating normally today following a brief walkout by several thousand workers.

After a strike Wednesday of about 12 hours, the 7,000 Pan Am workers were recalled to work by the AFL-CIO Brotherhood of Railway and Airline Clerks at the request of the National Mediation Board.

The strike ostensibly involved a wage dispute but an underlying issue was a representation dispute, still to be settled, between the clerks union and the Teamsters Union.

Episcopal Appeal For Negro Help Wins Supporters

SEATTLE (AP) — A swelling lineup of religious leaders across the nation have backed an Episcopal leader's appeal that all faiths divert money to Negro-led groups working to improve the lot of their race.

Messages of support poured in from various Protestant, Roman Catholic and Jewish officials.

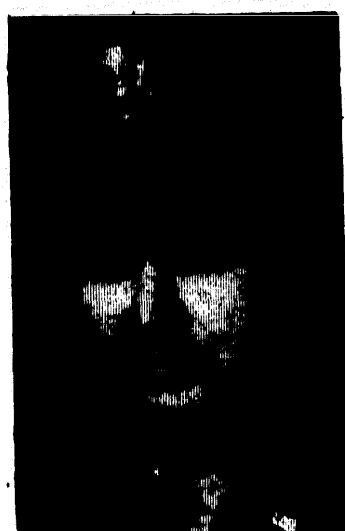

Hailing the plan, Dr. Arthur S. Flemming, president of the National Council of Churches, said the interdenominational organization favored reallocation of Church funds to help "victims of discrimination" win justice.

The president of the American Jewish Committee, Morris B. Abrams of New York, said it also stood behind the call for "a major cooperative undertaking" to aid the poor in their struggle for "basic human rights."

Catholic Bishop James P. Shannon of St. Paul-Minneapolis sent his endorsement of the plan "for broader ecumenical response" to the crisis in slums of American cities.

Computer School

DETROIT (AP) — Control Data Corp. will set up a school in nearby Southfield to train programmers for computers.

ROGER N. WILLIAMS, son of Mrs. Roger Williams, 1221 9th Ave. S., was recently promoted to Captain while serving in the U. S. Army. Capt. Williams, who was an anesthetist at St. Francis Hospital before entering the Army in July, 1966, received his basic training at Fort Sam Houston, Tex., and has been stationed at Sandia, N. M.

Safety Delegates Urge Inspections

GAYLORD (AP) — A 1967 Governor's Regional Traffic Safety Conference was held here Wednesday with some delegates urging a compulsory motor vehicle inspection law.

Traffic safety and law enforcement officials from all over Michigan attended.

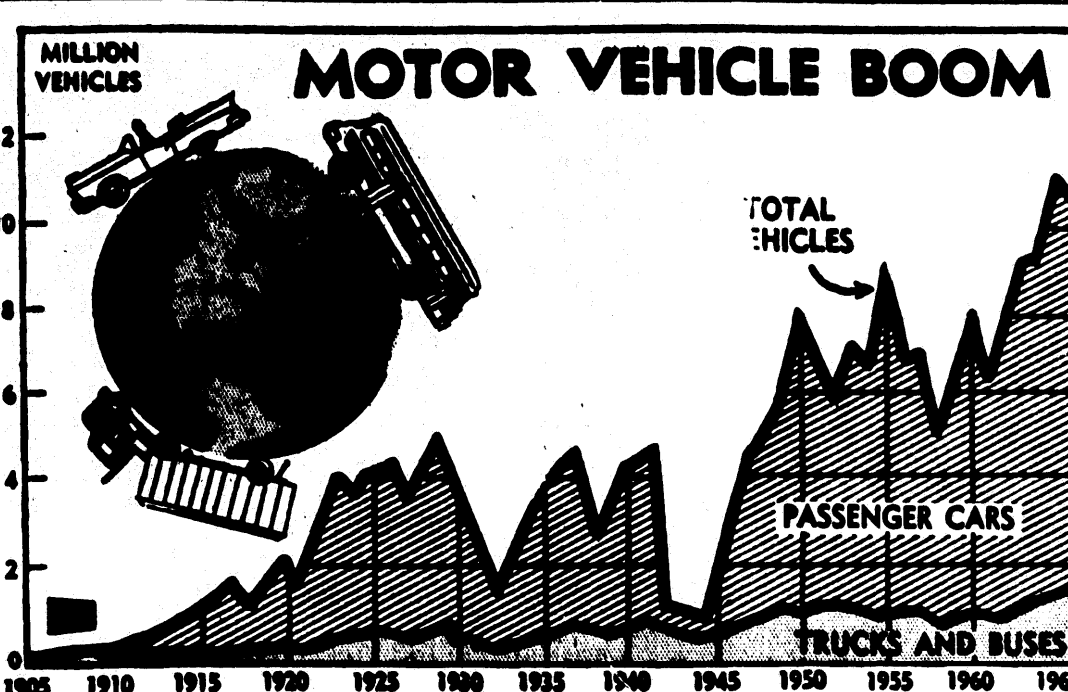

Rep. Gustave J. Groat, R-Battle Creek said he felt more police and more summonses were needed to help cut the traffic accident toll.

Head Start Grant

WASHINGTON (AP) — A \$264,183 grant has been awarded Detroit's Mayors Committee on Human Resources Development for operation of a Head Start preschool education program.

Sen. Robert P. Griffin, R-Mich., said Wednesday.

CLASSIFIED ADS COST LITTLE BUT DO A BIG JOB

ONE OUT OF EVERY SIX businesses in the United States is automotive in nature, according to the Automobile Manufacturers Assn., evidence of the tremendous impact motor vehicles have on the nation's economy. Production of cars especially has mushroomed and held its momentum over the past two decades, while trucks and busses hold somewhat steady.

Youth Fares

New youth fares and the "Discover America" reduced rate air travel plan are now available to North Central Airlines passengers.

Anyone who is 12 years of age but under 22 may apply for an identification card which permits the holder to purchase a ticket at two-thirds of the regular adult fare. No travel restrictions are imposed.

Don't Get Into A Sweat Over CHANGING YOUR FURNACE FUEL!

You've Got A Good Thing In OIL HEAT!

It's safe—can't explode. A flaming torch plunged into a pail of fuel oil will be extinguished. Only when mixed with air under pressure — as in your furnace — will oil ignite. It's dependable — no cold weather "pressure drops" to reduce your fuel supply. You have a reserve stored safely on your property. It's economical — oil fired furnaces are heavier and longer lived, bring a better price for your home, if you sell, and older units can be revitalized for greater efficiency and economy at a nominal cost.

Spectacular rush campaigns are being staged to pressure you into changing from fuel oil to other fuels. This can well cost you a lot of money now and in the future. To help you establish the facts, ask the salesman who calls on you these all-important questions. When you have considered his answers and judged the facts, you will better understand the many advantages of modern oil heat vs. the unguaranteed claims and unsupported promises for other fuels.

- Q Will it actually cost us less to heat our home with your fuel than with fuel oil, and will your company guarantee this in writing for next year and the future?
- Q Isn't it true that oil and other fuels are equally and completely clean in the home because all are burned in a sealed combustion chamber and exhausts are carried off via the chimney?
- Q If you can't guarantee our fuel cost savings now and in the future, and we must invest hundreds of dollars in new equipment, please explain how you can say your fuel costs less.
- Q By using modern oil heat, we are free to buy our fuel and services where we choose. If we are unhappy with your heating fuel, your service or increased rates, can we change to a competitive fuel supplier?
- Q Our oil fuel gives us more than twice as much hot water, faster, at less cost per month. Can your system match this?

DON'T GAMBLE... HEAT WITH SAFE, ECONOMICAL

Schools Remain Closed In Eight State Districts

By The Associated Press
Teachers fought back with mass resignations in three districts as eight Michigan school districts remained closed today, going into the third week of extra vacation for some 57,000 pupils.
Court orders to return to work were met with mass resignations in North Dearborn Heights and Crestwood, both Detroit suburbs.
In Bridgeport, a Saginaw County Circuit Court Judge was to sign an injunction today, giving teachers and the board time for 11th-hour bargaining. But 137 of the 151 teachers turned in resignations before a court hearing Tuesday.
The plush Detroit suburb of Bloomfield Hills, home of Gov. George Romney, faced similar action. The school board sought an order forcing teachers to go back to work and a ruling was due today. A spokesman for the Bloomfield Hills Education Association said mass resignations were being considered.
The Menominee School Board refused to seek court action against striking teachers.
Injunctions were being sought in Highland Park and Hamtramck and were being considered in Dearborn.
Teachers at Bay City, Saginaw, Birmingham and Holland were back to work under court order. But in Birmingham, teachers have asked the Michigan Education Association to impose sanctions on the district. This would mean the MEA would warn prospective teachers that Birmingham was not a good place to teach.
Macomb County Community College announced it would open Monday after the board of trustees and about 230 teachers ratified a first contract Wednesday night.
Teachers had accepted a contract last Saturday, but the board Tuesday amended the grievance procedure and the teachers refused to accept the amendment. Agreement came finally after the sides compromised on the disputed issue.
Oak Park teachers returned to school Wednesday after ratifying a tentative agreement.
Most schools were scheduled to open Sept. 5, but lack of master contracts between the school boards and the teachers' representatives caused delays in dozens of districts.
Pay was the primary sticking point, but working conditions figured largely in the negotiations. The size of classes was a major factor in many districts.

Griffin Proposes Probe Into NRA

WASHINGTON (AP) — Amid a duel of words over gun control legislation, Sen. Robert P. Griffin of Michigan proposed today a Senate investigation of Pentagon policy toward the National Rifle Association.
The Republican asked the Senate Armed Services Committee to find out why the NRA has become "the exclusive sales agent" for surplus Army rifles.
His request coincided with initial Senate committee action on President Johnson's hotly contested firearms control bill.
That measure, bitterly opposed by the NRA, was approved Wednesday by the Senate juvenile delinquency subcommittee.
The 5 to 4 decision was only a preliminary skirmish in the gun control battle, which will be waged later in the full Judiciary Committee and in the Senate itself.
The Johnson bill would bar interstate mail-order firearms sales, along with over-the-counter handgun sales to out-of-state purchasers. It also would bar importation of military surplus handguns and required licensing of all firearms dealers, importers and manufacturers.
The inquiry Griffin seeks does not involve the firearms control issue. It stems from the report of some 400 Detroit policemen that they are joining the NRA so they can purchase surplus carbine rifles for possible riot control use.

Montreal Bus, Subway Workers On Strike Today

MONTREAL (AP) — Montreal's bus and subway workers struck for higher pay today, virtually paralyzing the city transportation system that serves about 1.3 million riders a day.
The strike against the Montreal Transportation Commission by its 6,000 employees shut down 2,000 buses, 400 miles of routes and 41 trains of the city's new subway line, inaugurated this year.
Wages were the main issue. The Commission reportedly offered to increase average driver pay from \$2.77 an hour to \$2.90, but the union representatives asked for a \$3.50 package.

Nixon Leads Field In New Hampshire Now

CHICAGO (AP) — With a lead in the polls, Richard Nixon today led the field in New Hampshire, where voters will elect the state's first president on Oct. 30.
Gov. Ronald Reagan of California has passed the word he does not want his name on the ballot in the March 12 primary. So his supporters are concentrating on a write-in campaign along the lines which gave Henry Cabot Lodge a surprise victory in 1964.
Others sure to muster write-in support if they decline to be on the ballot include Gov. Nelson A. Rockefeller of New York and Sen. Charles H. Percy of Illinois. Some diehards say they will write in the name of Barry Goldwater, the party's 1964 nominee, despite his crushing defeat by Lyndon B. Johnson.
New Hampshire is a state where the town meeting is cherished as an example of true

Canadian Slain; Kentuckian Held

WHITESBURG, Ky. (AP) — A prominent Canadian film producer was shot to death Wednesday as he and a four-man production crew filmed scenes of poverty in this mountainous eastern Kentucky area.
Hugh O'Connor died soon after being hit with a .38-caliber slug in his chest. Hubert Ison, 69, of the Jeremiah community, was charged with murder. A hearing was set for this afternoon.
The 46-year-old Montreal native was on leave from the Canadian National Film Board to produce a film on "All Walks of Life in the United States" for Francis Thompson, Inc., a New York City firm that specializes in educational documentaries.
Ison owns a cluster of houses at a coal mine camp about five miles north of here on Ky. Route 7. It was this cluster of shacks that the crew was filming when O'Connor was shot to death.

Man, 24, Draws Jail In Death Of Garden Man

CRYSTAL FALLS—Dean E. Westcott, 24, of Iron River, was sentenced to six months in the Iron County jail and placed on two years' probation after pleading guilty in Circuit Court to a reduced charge of negligent homicide.
Westcott was charged originally with involuntary manslaughter in the death June 29 of Joseph Tatrow, 50, of Garden, who was killed by Westcott's car while working on a construction project on M-189 about four miles south of Iron River.
Circuit Judge Ernest W. Brown also suspended Westcott's driving privileges for two years. Had Westcott been convicted on the original involuntary manslaughter charge, the sentence could have been greater.

13-Day Storm Adds Six Lives To Death Toll

(Continued from Page 1)
homes. The residents had fled inland or to shelters.
Lack of water was a problem elsewhere. The municipal filtering plant at Corpus was fouled by Gulf backup. The situation was the same along the coast, where some cities reported up to 85 per cent destruction.
Restoration of electrical power was days away, utility company spokesmen said.
Beulah kept her hurricane status for hours longer than expected. Once over land, most hurricanes quickly lose force.
She was entered 60 miles west of Corpus Christi at 5 a.m., when hurricane warnings finally were lowered.
Tragedy and the joy of a new child were marked at Red Cross shelters in Alice. A little girl was born at 12:15 p.m. Wednesday in one shelter. The parents named her Beulah.

SCHOOL CHILDREN, some accompanied by mothers, crowd entrance to the Burns elementary school in Detroit. Classroom doors swung open for some 300,000 students in the city, ending a summer vacation that was prolonged by a 13-day teachers strike. Teachers won an across the board raise over two years of \$1,700. (AP Wirephoto)

Couple Arrested For Check Fraud

A Minneapolis man and woman, arrested by city police in Sault Ste. Marie, were returned to Escanaba today in connection with a check fraud charge.
They are Karen Hickstein, 26, and Carl McGee, 40, whose car contained a large amount of check writing equipment, authorities reported.
The complaint of obtaining money under false pretenses was made by Mrs. Richard Post of the Caterbury Book Store in Escanaba. She reported to police that on Saturday she cashed a check for \$127.53 for a woman who purchased books. Later inquiry disclosed the check was a forgery.
A description of the woman, her male companion, and their automobile was given authorities.
The arrest of the couple followed an identification of their automobile by a former State

Police officer as he drove behind it along the highway going toward Sault Ste. Marie. He stopped and telephoned police in the Sault.
Police arrested the couple at a motel at 4:20 p.m. Wednesday. Today they were taken there and brought to Escanaba by Delta County Sheriff Harold Finman.
Officers at Sault Ste. Marie reported that McGee is now on parole in Minnesota for burglary and robbery armed and that he has a long criminal record there and in Wisconsin.
The automobile the couple was driving was a rental car that had been driven away from a motor agency in Madison.

Pope's Need For Operation Not Urgent: Doctors

VATICAN CITY (AP) — Pope Paul VI's three doctors said today his examinations showed no immediate need for an operation to correct the prostate condition which led to his illness.
Informed sources had said, however, that although the operation was not urgent, it would be necessary eventually.
The 68-year-old Pope fell ill Sept. 4 but has recovered enough that the sources said he may even be able to preside at the opening of the worldwide bishops' synod meeting Sept. 29.
The doctors said the Pontiff's recovery was continuing relatively rapidly, and that the treatment he has been receiving seemed sufficient to bring about his almost complete recovery from the inflammation of the urinary system which he has suffered.

Suez Battling Kills 4 Israelis

TEL AVIV (AP) — Israeli and Egyptian tank and artillery units battled across the Suez Canal for the second straight day today and four Israelis were killed and six wounded in the fighting, an army spokesman said.
The skirmish at El Qantara in the canal's northern sector brought the heaviest Israeli casualties since a fierce cross-canal exchange July 14 that left seven Israelis dead and 22 wounded.
The Egyptians scored a direct hit on an Israeli bunker, injuring several soldiers, the spokesman said. Israeli gunners claimed strikes on two Egyptian tanks, but it was not known if they were destroyed.
The battle began at 7:55 a.m. local time when the Egyptians opened up with small arms and machine guns, gradually intensifying their barrage to recoilless rifles, tanks and heavy artillery, the spokesman said.

GOP Has Rally At Mackinac This Weekend

MACKINAC ISLAND (AP) — More than 700 Michigan Republicans are expected to begin arriving at this off-shore resort island Friday for the party's biennial Mackinac Island conference.
State Chairman Elly Peterson says all of the Straits area's hotel rooms have been reserved for the three-day event featuring appearances by top state party officials led by Lt. Gov. William Milliken and U. S. Sen. Robert Griffin.
Also attending will be members of the state's Congressional delegation and State Legislature.
However, the party's standard bearer and potential presidential nominee, Gov. George Romney, will be absent, touring San Francisco and Los Angeles as part of his 20-day cross-country look at the nation's troubled urban areas.
Buy and sell the classified way.

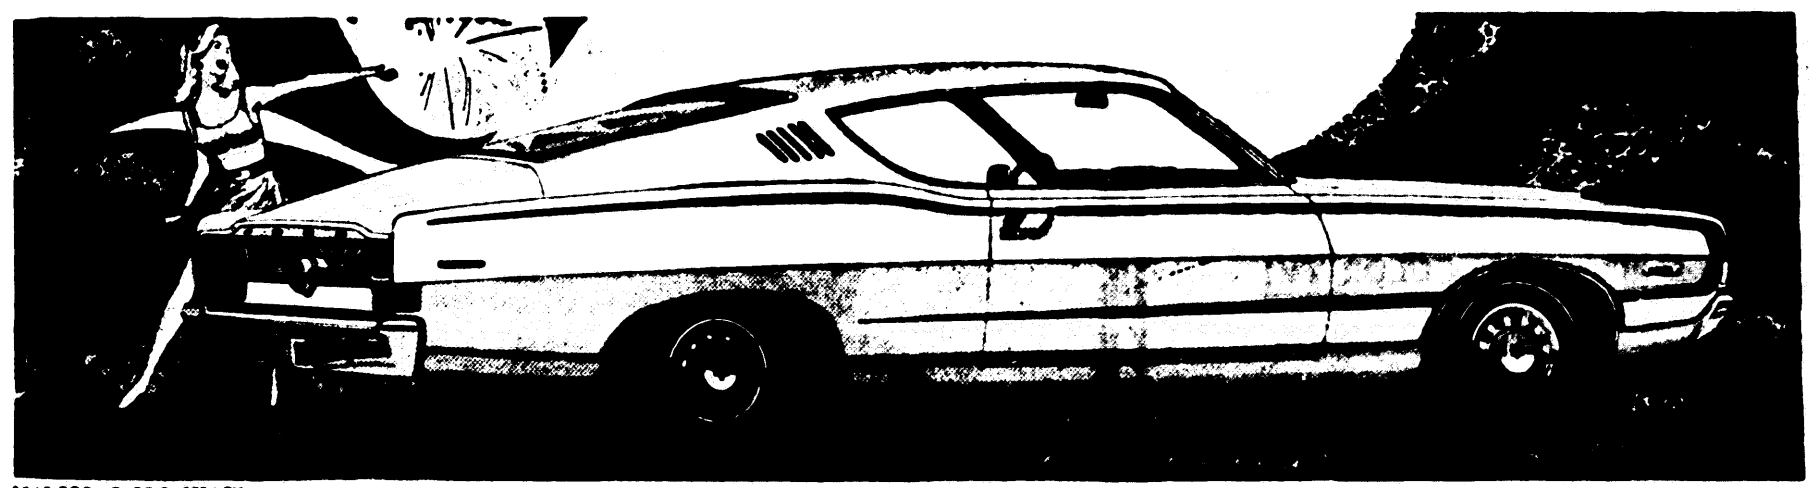

War Protesters At White House Stage Sit-Down

WASHINGTON (AP) — A protest against the Vietnam war by some 600 persons, mostly middle-aged women, erupted Wednesday afternoon into a skirmish with police in front of the White House.
Some 100 partisans of the Women's Strike for Peace, angry because new regulations limit picketing in front of the White House, threw their weight Wednesday against a thin, blue line of U.S. Park Police.
The officers were stretched across the White House sidewalk, arm linked in arm, to make sure the allowed maximum of 100 pickets already on the scene would not be joined by their colleagues in front of the executive mansion.
The women shoved and pushed, blood showed on the shirt sleeve of one police officer and feelings apparently ran high on both sides of the skirmish line in the 86-degree weather.
The women want no part of the Vietnam war.
Sit In Street
The irate women—once thwarted by a reinforced human wall of police—sat in the middle of East Executive Avenue, a public thoroughfare bordering the White House.
A man who identified himself as an inspector of the Park Police—which has jurisdiction over the public lands in the environs of the White House—announced over a cruiser-mounted loudspeaker that the antiwar demonstrators had violated the condition of their permit to picket peacefully and that the permit was thereby revoked.
In sober tones he told those sitting in the street that unless they moved within two minutes they would be arrested on charges of unlawful assembly by virtue of obstructing the free use of a public thoroughfare.
Neither side budged until, long after the two minutes had expired, a deputy chief of police of the District of Columbia took over the same microphone and eased the terms.

Briefly Told

Five Children, Locked In Cabin, Die In Fire

WATERVLIET (AP) — Five tiny children of migrant farm families suffocated Wednesday when fire broke out in the one-room tarpaper and wood cabin in which they had been locked.

The youngsters ranged in age from 1 to 4.

Sgt. Nigel Krickhahn of the Berrien County Sheriff's Department said Martha Barrett, 13, sister of two of the victims, was watching the children in the cabin on the Alton Wendzel farm.

Three older children played outside, Krickhahn said. The girl left the cabin to use outdoor toilet facilities and locked the door. The parents, from Bell, Tenn., had gone out to work in an apple packing shed.

As the girl came back she saw smoke coming from the cabin, and screamed. "The cabin is on fire," and ran to a nearby packing shed.

One of the farm operators, Kenneth Wendzel, ran to the cabin, kicked the front door open, but was driven back by flames and smoke which gutted the cabin and broke through the roof.

Wendzel then smashed a window, but heat forced him back again with minor burns on his face.

When firemen arrived and put out the flames, the five bodies were found huddled beneath a cupboard at the back of the cabin. Matches and a lighter fluid can were found on the floor, firemen said.

Krickhahn identified the dead as J. D. Barrett, 4, and C. J. Barrett, 3, sons of Mr. and Mrs. Cecil Barrett; and Robert Barrett, 4, George Barrett, 3, and John Barrett, 1, sons of Mr. and Mrs. Ernest Barrett.

Ernest Barrett is Cecil's son. The families lived in two cabins. The children were kept indoors so they wouldn't be injured by heavy machinery used

in the big fruit-growing operation on the Wendzel farm. The Barretts had been coming to this southwest Michigan farm for 10 years to pick and pack fruit.

Bark River

Bark River-Harris area students who were omitted unintentionally from a previously published list include: Russell Simmons, Bay de Noc Community College, Escanaba; Michael Niquette, ManPower Business Training Institute, Milwaukee; James Hooker and Henry Gurosh, Michigan State University, Lansing; and Larry Pilon, University of Michigan, Ann Arbor.

Brothers and sisters of Edward Gurosh of Wilson, who is a medical patient at St. Francis Hospital, Escanaba, and who visited him during the past week were: Mr. and Mrs. Elmer Gurosh and daughter, Linda, of Milwaukee; Mr. and Mrs. Jack Gurosh, Mr. and Mrs. Robert Gurosh of Hammond, Ind.; Mrs. Mary Palaga and son, Michael, Mrs. Sophia Webber and Mrs. Adolph Drozd, all of Racine, Wis.

The USSR has a law prohibiting dolphin fishing.

FIVE MEMBERS OF THE ESCANABA WOMAN'S CLUB modeled various historical hats presented in the program, "Hats and History," at their opening meeting last evening at the House of Ludington. Pictured from left, Mrs. Jean Cote, wearing a royal blue velvet Napoleon with white

feather trim, depicting the 1914 era; Mrs. Edmund Hengesh is very stylish in a large black brimmed hat trimmed with three large vibrant pink roses. This was the popular style in 1908. The perky Empress Eugenie in bright orange felt with black wrap around plume is modeled here by Mrs. Mar-

vin Roberts. This was the very height of style in the mid 1930's. Mrs. Gerald Martin wears the large, floppy brimmed hat portraying the "I want to go home" look of Greta Garbo, the rage in 1929. This particular hat is of gold beige felt banded in light brown. At the far right is Mrs. Tom Irish all

set for a ride in the horseless carriage in her large brimmed turquoise blue velvet hat with long streamers. This type hat was worn by fashionable ladies in 1919. (Daily Press Photos)

Isabella Circle Plans Social For Monday

The monthly social for the Daughters of Isabella, Trinity Circle 362, will be held Monday at 8 p. m. at the Teachers' Hall. Members may invite guests.

Dessert will be served, followed by cards of the players' choice with a prize for each table.

The committee in charge includes: Mrs. Irvin Caslin and Mrs. Herman Polmateer, chairman, and the Mesdames, John LaValley, George Frasher, Robert Hirm, Paul Rademacher, J. P. Feller, Albert Goodreau, Ben Shandoney, Arnold Alsten, William Morrow, Lawrence Roulle and William Savageau.

The next business meeting will be Oct. 9 with Mrs. Howard Dishneau, chairman.

'Hats And History' Program Delights Woman's Club

An interesting and unusual program, entitled, "Hats and History," delighted the members of the Escanaba Woman's Club at their opening dinner meeting held Wednesday evening at the House of Ludington.

Seventy-one years of history as shown in ladies' hats was presented by Miss Joan Gargano of Minneapolis, consumer relations representative for the Sperry and Hutchinson Co.

Five members of the Escanaba Woman's Club modeled the 10 hats depicting styles of 1890, 1908, 1914, 1924, 1929, 1935, 1938, 1940 and 1950. Models were Mrs. Tom Irish, Mrs. Gerald Martin, Mrs. Jean Cote, Mrs. Edmund Hengesh and Mrs. Marvin Roberts.

Following dinner which was served at 6:30 p. m., Mrs. Alfred LaBranche introduced the following new members of the Woman's Club: Mrs. Larry Fleming, Mrs. Ruby Gorman, Mrs. Louis Gregory, Mrs. Paul LaPorte, Mrs. Ralph Thompson, Mrs. Philip Dougherty and Mrs. Ron Koth.

New Officers

During the brief business meeting, Mrs. Stanley Venne, president, welcomed the members and introduced the officers for the 1967-68 year. They are Mrs. Wesley Hansen and

Mrs. John L. Greene, vice-presidents; Mrs. Clifford Frasher, recording secretary; Mrs. Harold Vanlerbergh, corresponding secretary and Mrs. E. G. Harkins Jr., treasurer. Directors are Mrs. E. L. Pohl and Mrs. Forrest Henslee.

Standing committee heads include the Mesdames, Wesley Hansen, Thomas McInerney, Gerald Martin, John Greene, Richard Pryal, Robert Storbeck, Merton Jensen, Donald Ness, John Anthony, John C. Gunderson, Eric Engman, James Legault, F. K. Harrington, F. W. Schmitt, Ole Morey and Alfred LaBranche.

The guest prize, a floral centerpiece, was presented to Mrs. Louise Gregory.

Rapid River PTC To Hold Open House

Rapid River P.T.C. will hold open house at the Rapid River Schools Monday, 8 p. m., meeting in the multi-purpose room of the Bay de Noc Elementary School.

Superintendent Richard Dye will introduce the faculty members. Max Collins, 4-H youth agent for Delta and Schoolcraft counties, will present the program.

Lunch will be served by the senior class mothers with Mrs. Thora Greenlund, chairman. Everyone is invited to come and see the improvements at the schools.

First week's sales of "Shepherd of the Wilderness," surpassed expectations of the author, Bernard Lambert of L'Anse. About 1,000 copies have been sold since publication Sept. 10. Lambert has received many congratulatory letters on his biography of Bishop Frederic Baraga, Monsignor Pelissier, Bishop Nor Home, Escanaba, formerly pastor of Sacred Heart Church. L'Anse, wrote: "A monumental work—every phase of your work is most praiseworthy—be assured of sincere thanks for your contribution to the written history of the Diocese of Marquette."

A pound of uncooked cornmeal yields about 3 cups.

As the models strolled about the meeting room, Miss Gargano presented commentary on fashions and world events of the time the hats were "the" style.

The hats used in the program are authentic reproductions of those on display in the Metropolitan Museum of Art in New York City. Oldest hat in the group is regal, small hat, designed to perch on the elaborate puff pompadour worn in 1896.

Accompanying music for the

Mary A. Sebeck Bride Of Frank A. Rivers

Mary Ann Sebeck of Escanaba became the bride of Frank Arthur Rivers of Rte. 1, Gladstone, during a ceremony performed Saturday, Sept. 2 at St. Joseph's Church in Escanaba.

Rev. Isadore Walter officiated at the double ring ceremony at 10 o'clock in the morning.

Parents of the couple are Mr. and Mrs. Roy Sebeck, 2103 5th Ave. N., Escanaba and Mr. and

Mrs. Art Rivers of Rte. 1, Gladstone.

Honor attendants for the couple were Barb Rivers, Gladstone, sister of the bridegroom and Don Lambert of Gladstone. Seating the guests were Roy Sebeck Jr. and Ronald Deiter of Escanaba, brother and cousin of the bride.

Sheer Taffeta

The bride wore an empire sheath gown of white nylon sheer over taffeta styled with a lace bodice, elbow length sleeves and a scoop neckline. A sheer wattleau flowing panel formed the back detail.

A pearl crown held her shoulder length net veil and she carried a bride's bouquet of carnations and ivy foliage.

The maid of honor was attired in a pale green Empire gown with matching veil headpiece. She carried an arrangement of pink and yellow shaded mums and carnations with ivy foliage.

Delta Medical Auxiliary Meeting Held

The Delta-Schoolcraft Medical Society Auxiliary held its regular monthly dinner-meeting at the Terrace on Tuesday evening. Special speaker for the evening was Mrs. John Curtis, chairman of the new volunteer program for pediatric patients at the St. Francis Hospital.

This project called, "Play Lady," was initiated in the local hospital last May and its prime objective is to conduct activities for the child patient. The extent of a child's participation in these activities depends upon the nature of his illness or hospitalization.

The program of activities includes: reading to the child, playing games and visiting with the child and providing the necessary materials for arts and craft. Effort is made to stimulate the child's interests.

Any woman in the community interested in volunteering her services to this project and desiring further information may call Mrs. Curtis, 786-5595.

Mother's Attire

The mother of the bride wore a blue suit with matching accessories and Mrs. Rivers chose a brown two piece suit with matching accessories. Both mothers were presented floral corsages.

The wedding reception was held during the afternoon and evening at the Flat Rock Hall.

The newlyweds will make their home at 1403 Washington Ave., Escanaba.

St. Thomas H.S. Meets On Tuesday

The first meeting of the St. Thomas Home and School was held Tuesday, Sept. 19, at 8 p. m. Fr. Leno Zadra opened the meeting with a prayer.

New officers initiated were: Ken Swanson, president; Mrs. Patrick Coyne, vice-president; Mrs. Clayton Tanguay, treasurer, and Mrs. Vincent Lewis, secretary.

Mrs. Ken Swanson was appointed room chairman, and room mothers are: Mrs. Phil LaMarche and Mrs. Elizabeth Schiska, first grade; Mrs. Gerald Mongraine and Mrs. David Hirm, second grade; Mrs. George Bougie and Mrs. Dorothy LaFave, third grade; Mrs. F. F. Freisies and Mrs. Edward Anderson, fourth grade; Mrs. Gordon Nevala and Mrs. Henry King, fifth grade; Mrs. John Keane and Mrs. Frank Scheffer, sixth grade; Mrs. Bernard LaPlaut and Mrs. Henry Pepin, seventh grade, and Mrs. Steve Soper and Mrs. Patrick Rudden, eighth grade.

Mrs. Frank Scheffer was chosen membership chairman.

New teachers introduced were: Sister Jane Loretto, Sister Lawrence Therese, and Sister Sharon Marie.

Lunch was served by the 8th grade mothers.

Births

MANTEI—Lt. and Mrs. Thomas J. Mantel of Ewa Beach, Hawaii are the parents of a daughter, Alicia Carol, weighing 6 pounds and 11 ounces. Household Noise Annoys College Graduates Most

DETROIT (AP)—The slosh and rumble of a washing machine and the whirr of a refrigerator annoy college graduates more than persons with less education, a University of Michigan research team has found.

In tests with tape-recorded noises from household appliances, the researchers found education has more to do with how much a noise bothers a person than any other factor tested.

The study was sponsored by

a manufacturer of large appliances to test consumer reactions to its products and see which machines need sound-proofing.

Using the living room of an Ann Arbor home for a laboratory, they tested 192 people to see what kinds of noises were most objectionable to persons with different backgrounds.

With the persons being tested seated in the living room, the recorded noises were played from the kitchen and basement at varying degrees of loudness. Each person was asked to rate the sounds according to how much they bothered him.

The report rules out income level as a factor. Low-income graduate students were just as much bothered by the noises as their wealthier classmates, the researchers said.

Robert Heimer, associate professor of psychology and one of three researchers, said the research team had no explanation for the tendency of college graduates to be more annoyed by sound.

SUZETTE MARY PEPIN, daughter of Mr. and Mrs. Gerald Pepin, 1226 N. 19th St., has completed 10 weeks of basic training at the U. S. Navy Training Center for women, Bainbridge, Md. She is spending 14 days leave at home before reporting to the Naval Air Station, Lemoore, Calif., for general duty administration. A 1967 graduate of Escanaba Area High School, Miss Pepin entered the Navy in June.

Henry Ford Is Rated Greatest

ANN ARBOR (AP)—Today's business executives rate Henry Ford, founder of the Ford Motor Co., as the greatest businessman in American history, a University of Michigan research report said today.

In a six-month survey of 423 business executives, Ford received 97 first-place votes and a total of 2,850 points on a formula of 10 points for a first-place vote, nine for second, and so on.

Runners-up, in order, were steel giant Andrew Carnegie, inventor Thomas A. Edison, oilman John D. Rockefeller, automobile magnate Alfred P. Sloan, financier Bernard M. Baruch, telephone inventor Alexander Graham Bell, explosives industry leader E. I. du Pont, auto builder Walter P. Chrysler and tire company founder Harvey S. Firestone.

Prof. David L. Lewis, on whose interviews the report is based, said businessmen made the selections partly on the basis of personal knowledge of the men involved, partly as the result of their impressions and opinions of the men.

'Periscope' Aid To Meter Reader

GRAND RAPIDS (AP)—A seven-foot long "periscope" invented by a Grand Rapids Water Department employee to read meters in pits outside basement buildings is drawing attention of delegates at a meeting this week of water supply experts.

The device, with two lenses and a battery operated light, cost Gerald Nelson, 28, about \$20 to build and is saving the city an estimated \$3,000 a year in time spent pumping ground water from the pits before the metermen can read the meters.

Big Oil Slick Is Beach Threat

CHICAGO (AP)—Massive oil slicks stretching along a 75-mile span of Lake Michigan were described by a metropolitan official here as "the worst case of pollution I've ever seen in a body of water."

Vinton W. Bacon, general superintendent of the Metropolitan Sanitary District of Greater Chicago, said the slicks are evident all the way from the city's near North Side, to the Indiana Harbor ship canal near Gary, Ind.

Bacon examined the oil slicks from a helicopter this week. He cautioned that if winds changed, beaches in the Chicago area could become as fouled as those in England after the Torrey Canyon broke up and spilled millions of gallons of oil into the sea.

Capt. John Nawtig, port captain of the Coast Guard in Chicago, said the investigation is centering on Indiana Harbor where the oil seems the thickest. Coast Guard crews were searching for the source of the oil.

GM Revises Car Warranty

DETROIT (AP)—General Motors Corp. Wednesday announced revisions and an extension of the warranty on 1968 model passenger cars and light trucks.

Under the terms of the 1968 warranty, the original owner of any GM passenger car receives a manufacturer's warranty against defects in material and workmanship on the entire vehicle, except tires, for 24 months or 24,000 miles, whichever comes first. In addition, GM extended the warranty for five years or 50,000 miles, whichever comes first, on the power train, suspension and steering components.

Similar coverage applies to Chevrolet and GMC light trucks, but only the power train is covered in the extended warranty for trucks.

Subsequent owners may take over the unexpired warranties on vehicles by registering through a dealer and nominal payments.

Seatless Bus

PORTLAND, Ore. (AP)—Among the items advertised for sale by the federal government in eastern Oregon was a 34-passenger bus without any seats.

In hibernation, a ground squirrel's heart throbs weakly three times a minute, compared with the normal rate of 360 beats.

Buy Bonds where you work.

They do.

They work for freedom. It isn't a white collar job. Or a safe one. But it is a satisfying one. And the men who work at it think it is so important that more than seven out of ten of them are supporting freedom with their dollars, too—through investment in U.S. Savings Bonds. When you buy Bonds, you can save up for a rainy day, a home, a free and comfortable future—and at the same time show these brave men you're on their side. Join the Payroll Savings Plan where you work or buy Bonds where you bank. You'll walk a bit taller.

you are eligible to purchase new U.S. Savings Notes, "Freedom Shares," as a bonus opportunity. Freedom Shares pay 4.74% when held to maturity of just four and a half years (redeemable after one year), and are available on a one-for-one basis with Savings Bonds. Get the facts where you work or bank. Join up. America needs your help.

Mission Society Hears Rev. Fox

The Women's Missionary Society of Grace Baptist Church will hold a regular business and social meeting at the church at 7:30 p. m. today.

The Rev. Lowell Fox will be the speaker. A musical program featuring accordion selections by Vern Slagstad and a vocal solo by Mrs. Esther Ekstrom, has been planned.

Members are asked to bring articles for the Kitchen Show which will be held following the business meeting. Mrs. Anna Darrow will be the hostess.

Goats are one of the most widespread of domestic animals.

GLADSTONE

Briefly Told

William Strand, Kingsford, was ticketed by State Police Wednesday for no proof of insurance.

Two larcenies are being investigated by State Police. A stereo-tape player, tapes and a set of gauges was taken from a wrecked car owned by Duane Kasbohn, Perronville, while it was parked at Dave's Body Shop, Wells, officers said, and a bottle gas tank was stolen from a camp on Old State Rd. owned by Charles DeGrand, 620 S. 8th St., Escanaba.

HIGH STYLE is in order for BOAC air hostesses, such as Pat Bleasdale, since the line started issuing minidresses on the line's New York and Caribbean flights as part of a promotional campaign. New dresses will be issued to each girl for each flight, and they can keep them after the flights.

Education Aid Tests Saturday

Gladstone High School Seniors or graduates will again have the opportunity to qualify for State of Michigan Competitive Scholarships and tuition grants by taking qualifying tests to be offered at the High School Saturday, Nov. 11, it is announced by Don Pfothner, guidance director.

Each applicant must obtain a State of Michigan Competitive Scholarship examination registration form from Mr. Pfothner.

Scholarships up to \$800 per year, or the equivalent of tuition and fees at any of the approved public or private colleges and universities in Michigan.

All applicants will be notified by Jan. 1, 1968, of their performance on the examination and informed as to whether they qualify for further consideration. Scholarship awards will be announced by April 1. Honorary Scholarships will be awarded to qualifying applicants who qualify academically by having sufficient financial resources to attend the college of their choice. Monetary Scholarships will be awarded to qualifying applicants who qualify academically and demonstrate financial need.

Covenant Church Planning To Show Movie On Sunday

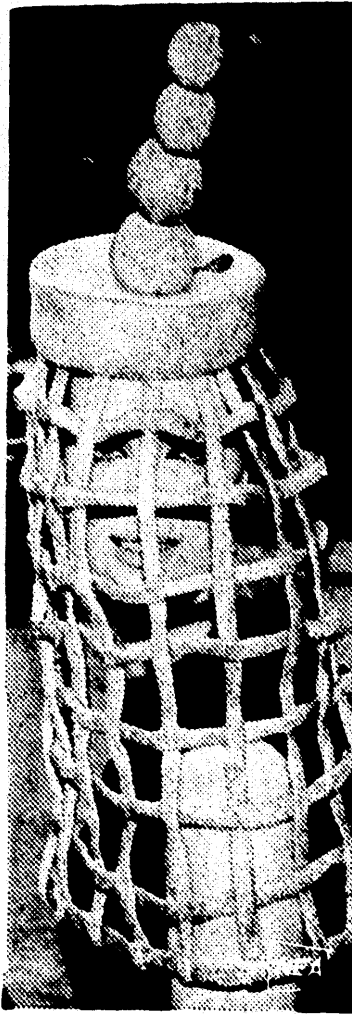

The Evangelical Covenant Church will show the dramatic feature length film, "Shadow of the Boomerang," at the church Sunday, beginning at 7:30 p. m.

Australia is the setting for the outdoor action picture starring Georgia Lee and TV's Buffalo Bill, Jr., Dick Jones. The two young Americans head an all Australian supporting cast, playing brother and sister roles in a story of homestead life "down under."

Filmed against the backdrop of the Billy Graham Australian Crusade, and produced by World Wide Pictures, "Shadow of the Boomerang" seeks to underline the Christian answer to human crises and conflicts.

The Rev. Loren E. Anderson, pastor of Evangelical Covenant Church, extends an invitation to the public to see this outstanding, dramatic presentation.

China issued the oldest known paper money in the 14th century. It was printed on mulberry bark paper.

CAGEY LOOK, or black widow's web if you prefer, is the idea of noted London milliner Simone Mirman. The lattice-cage veiling beneath the pillbox hat falls below the wearer's shoulders.

Rock

Sewing Club
The West Rock Sewing club met at the home of Mrs. Lauri Ranta Tuesday evening. The club will meet every two weeks. Hostess for the next meeting will be Mrs. Elmer Lajjala.

Rock PTA
The first meeting of the Rock P. T. A. will be held at the Rock School Monday at 8 p. m. Mrs. R. Benedict of Escanaba, a special helps teacher, will talk on the "Slow Learner." After her talk, the

new officers will be installed. The public is invited and lunch will be served in the home economics room after the meeting by the executive committee.

Band Boosters
The Rock Band Boosters met at the school Tuesday evening. The same officers will remain for the coming year. The club will not meet every month, but a meeting will be called when necessary.

Alaska's 16-million-acre Tongass National Forest covers three-fourths of the south-eastern part of that state.

Driver Education Starting Today

Driver Education classes, under the direction of Paul Smith, instructor, will begin at 3:30 p. m. today, according to Principal John Norton. Students who wish to enroll in a class must be 16 years of age by Dec. 1. All eligible students may enroll by contacting Mr. Smith in rooms 411 or 412 at the High School.

In This Corner

With RAY CRANDALL

First no-hitter of the Big Seven fall baseball season was turned in this week by Tim Moran of Carney in a 9-0 victory over Hermansville. . . Moran walked two and fanned 11 Redskin batters. . . Channing took over the No. 1 spot in the standings by beating previously undefeated Felch, 12-2. . . Todd and Norm Lindeman teamed up for a two-hit mound effort for the Roadrunners.

Tom Domres, former Gladstone athlete, will serve as co-captain of the University of Wisconsin football team when the Badgers open their season at the University of Washington Saturday. . . Domres, a 236 pound defensive tackle, is a three year veteran and is regarded by head coach John Coatta as the best lineman on the Wisconsin squad.

Chris Young, 5 foot 10 inch, 175 pound senior fullback, leads the Holy Name Crusaders in scoring thus far this season. . . Young has tallied two touchdowns on passes from quarterback Dave Buckland and scored another on a running play. . . Five other Crusaders have registered touchdowns in the first three games.

Bob Cowman, greatest passing quarterback in Manistique High School history, has thrown seven touchdown serials in three games. . . The senior southpaw specializes in long distance tosses. . . All but one of his touchdown passes have come on plays covering 30 yards or more. . . Cowman has completed 23 of 49 passes for 533 yards.

Loss of senior quarterback Dan Popin was a tough blow for the Gladstone Braves who suffered their first setback of the season to Ishpeming last Saturday. . . Popin had paced the Braves in scoring with two running touchdowns and another through the air. . . Pete Jarvis will step into his signal calling shoes and will be backed up by Bruce Richards.

The Escanaba Eskymos have displayed great scoring versatility while fashioning three straight victories this fall. . . Six different players have scored Escanaba's seven touchdowns to date. . . Fullback Jim Olsen has dented the goal line twice while Ken Kuhlthall, Steve Miketina, Gregg Johnson, Tom Boyle and Dan Mylander have tallied once each.

The Bessemer Speed Boys are off to a fast start in the Michigan-Wisconsin Conference this fall. . . Coach Jack White's gridders notched their third straight victory by rallying in the second half to trim Wakefield, 26-13. . . Trailing 13-12 at half-time, Bessemer won when Mark Borseth plunged over from the four yard line in the third period and Jeff Betlewski hit Pete Czajkowski on a four yard jump pass in the fourth.

Blanked in two previous starts this season, the Gwinns Model Towners got touchdowns from Gary Hansen in the second and third periods for a 13-9 decision over L'Anse. . . Hansen belted over from the one yard line for his first TD and from the two for his second. . . He also ran the PAT to account for all of the Model Towners points.

Stambaugh rolled out to a 20-0 lead over Greenwood, Wis., and then needed a final touchdown with eight minutes remaining in the game for a 25-20 victory. . . Jim McHugh reeled off 100 yards in 12 carries and scored two touchdowns for the Hill-toppers. . . His second D came on a six yard run with an intercepted pass and produced the margin of victory.

Steve Bull, Milwaukee Tripoli professional, has been elected president of the Wisconsin Professional Golfers Association, succeeding former Escanaba pro Dick Drennen of Madison. . . Drennen was elected national vice president representing Wisconsin.

Yeoman Praises Defensive Play In Opening Game

HOUSTON, Tex. (AP) — Bill Yeoman says he expects to receive NO special messages this week from his former boss, Duffy Daugherty, head coach at Michigan State.

Daugherty last week sent his former assistant a "good luck" message as Yeoman prepared his University of Houston Cougars for their season opener against Florida State.

All went well in the Astrodom Friday night as Houston romped over the Seminoles, 33-13. After reviewing the game film, Yeoman said the Cougars showed several qualities that should be helpful Saturday when they challenge Duffy's powerhouse.

"Our defense just did a completely excellent job," Yeoman said. "Everybody seemed to stick it to 'em and they maintained it all the way."

Defense set up three Houston touchdowns as linebackers Greg Brezina and Mike Johnson intercepted passes and Jerry Drones, a defensive end, recovered a fumble.

"We knew they'd complete some passes on us but we wanted to impress on them it was going to cost them when they did," said Melvin Robertson, defensive coach.

The Seminoles, No. 4 nationally in passing last year, completed only 19 of 49 attempts and had five interceptions. They almost ignored their ground game after falling behind, 13-0, in the first period, and netted only 44 yards rushing in 21 plays.

Michigan State's offense operates in an entirely different gear.

Markdowns and Special Purchases!
THRIFTWAY
Escanaba

BILL SARROWSKI, former Escanaba High School athlete, is shown with head coach Roy Kramer at Central Michigan University in Mt Pleasant. Sarnowski, a junior tackle is the lone Upper Peninsula representative on the Central football team and was a starter in the offensive line as the Chips defeated Bradley, 23-21, in their season opener last week.

Duke Shoots For Big Win

DURHAM, N. C. (AP) — The Duke Blue Devils will be looking for their 30th college football victory when they meet Michigan at Ann Arbor Saturday.

The Blue Devils, with 28 returning lettermen, walloped Wake Forest 31-13 in their home opener last week and are co-favorites with Clemson to win the Atlantic Coast Conference title.

Duke, 5-5 last year, has a strong defense which intercepted three Wake Forest passes and allowed only five completions for 69 yards.

The top Blue Devil runner is All-America fullback Jay Calabrese, whose next touchdown will set a school scoring record. He scored twice against Wake Forest, although held to 15 net yards rushing.

Duke Coach Tom Harp uses two quarterbacks, Al Woodall, a good passer who hit on eight of 11 against Wake Forest for 177 yards and one touchdown, and Larry Davis, primarily a runner.

The Blue Devil defense, with 15 lettermen in its ranks, will be poised to stop the passing of Wolverine quarterback Dick Vidmer, best passer in the Big Ten.

Sophomore Dick Biddle, who intercepted two Wake Forest passes and recovered a fumble last week, appears an able replacement for departed All-America linebacker Bob Matheison.

Harp's primary problem was a bevy of sophomores, including Biddle, moving into key positions.

"I was real pleased with some of them," he said. "That bunch came through with an outstanding job in their first varsity game."

Other good Duke sophomores include end Jim Dearh who caught three passes for 75 yards, tailback Pete Schafer, who scored a touchdown, and Ken Bombard, an offensive tackle who was credited by Harp with an outstanding blocking performance.

Duke had no serious injuries in the Wake Forest clash.

Michigan has beaten Duke in two previous games, 31-6 in 1960 and 28-14 in 1961.

Al Kaline, who struck early and after, got an early good night. Carl Yastrzemski, who saved his best shot for the late innings, had to stay around to the bitter end.

Kaline hit his 25th homer in the first inning of Detroit's 10-1 rout of the New York Yankees Wednesday night. After he doubled in the Tigers' run-scoring third and fifth innings, Al was sent home to put his foot up.

But the fled Sox, who have made comeback victories a way of life lately, needed Yastrzemski every inch of the way against Cleveland.

He hit his 41st homer in the sixth inning then got his fourth hit in the ninth, a single, and rode home on Reggie Smith's single with the run that won the game 5-4.

Yaz Puts In Full Night As Boston Wins On Rally

By The Associated Press

Al Kaline, who struck early and after, got an early good night. Carl Yastrzemski, who saved his best shot for the late innings, had to stay around to the bitter end.

Kaline hit his 25th homer in the first inning of Detroit's 10-1 rout of the New York Yankees Wednesday night. After he doubled in the Tigers' run-scoring third and fifth innings, Al was sent home to put his foot up.

But the fled Sox, who have made comeback victories a way of life lately, needed Yastrzemski every inch of the way against Cleveland.

He hit his 41st homer in the sixth inning then got his fourth hit in the ninth, a single, and rode home on Reggie Smith's single with the run that won the game 5-4.

The Red Sox stayed tied for the American League lead with Minnesota, which beat Kansas City 6-2 earlier in the day, while the Tigers remained in fourth place, one game out and a half-game behind third-place Chicago, which beat California 6-4.

Baltimore took a doubleheader from Washington 4-3 and 6-3 in 10 innings.

In the National League, Philadelphia beat St. Louis 3-1, San Francisco took Chicago 5-1, Cincinnati crushed Atlanta 9-4, Boston edged Pittsburgh 5-4 and Los Angeles defeated New York 4-3.

"These one-run games are more of a strain on you," said Yastrzemski. "It'd be less of a strain if we'd win 9-1 and lost by the same score."

Yastrzemski, who got his homer and two of his other hits off Cleveland's ace Sam McDowell, said, "I hit his mistakes. I have a day like this about every three weeks."

Tiger Manager Mayo Smith

Kaline Slams Homer In Detroit Victory

DETROIT (AP) — If the Detroit Tigers lose the pennant it won't be Al Kaline's fault.

The slugging outfielder is batting at a .365 clip for the month of September with 23 hits in 63 trips to the plate.

His first inning home run off Al Downing set Detroit on the road to a 10-1 victory over the New York Yankees Wednesday night. He contributed two doubles to the attack and drove in two runs, giving him nine RBI for the month.

"After losing three straight, we needed a lift," said Manager Mayo Smith. "He gave it to us with the homer. It was a real shot."

The victory kept the Tigers one game behind co-leaders Boston and Minnesota, which both won. Chicago, which beat California 6-4, remained in third, four percentage points out.

Joe Sparna, who won his 15th game, missing his sixth shutout when Charlie Smith hit a two-out homer in the Yankee ninth, struck out eight on a seven-hitter.

"I didn't have good stuff," said Sparna. "I had to start using breaking stuff and changing speeds. It was a big game and we won it."

Sparna said he always is concerned about winning, big game or not.

"You get paid for wins and losses whether you're in first or fourth place," he said. "I didn't start thinking about needing the win until the second inning. The last couple of games I couldn't get through the second inning, and I had better stuff in those games."

Smith said he held one of his rare team meetings before the game, but declined to discuss what was said.

"We've had more than a half-dozen meetings this year," he said. "We just talked about general things."

Kaline's homer, his 25th, put Detroit ahead 1-0 in the first. The Tigers picked up two more runs in the third.

Dick Tracewski walked and Sparna beat out a bunt which got by Mickey Mantle. Tracewski going to third on catcher Jake Gibbs' bad throw to first.

Dick McAuliffe's grounder scored one run and Kaline brought in the other with a double.

Mickey Stanley drove in a run with a single in the fourth and Kaline ignited a four-run fifth inning with a leadoff double off relief pitcher Fred Talbot.

Bill Freehan brought one run in with a single, Jim Northrup, batting for Wayne Comer, hit a bases-loaded single for two more runs and Tracewski's sacrifice fly brought in the other before Joe Verbanic, relieving Talbot, got the side out.

Singles by Lenny Green, Freehan and Don Wert brought in another run in the sixth and Wert belted one of Thad Tillotson's fastballs for his sixth homer in the eighth.

"I was sure mad about losing the shutout," said Sparna.

Smith hit a fastball. The Tigers were off today but go to Washington for a three-game series Friday.

Earl Wilson and Mickey Lorch were expected to pitch for Detroit against a couple of left-handers, Frank Bertina and Barry Moore.

Bender Wins Cycle Event

Kermit Bender of Escanaba finished first in the Class 1 competition in the seventh annual Big Chief Motorcycle Club run at the Rapid River Falls Park.

The event drew a field of 98 riders from Michigan and Wisconsin.

Loretta Brier of Bay View was the only Powder Puff to cross the finish line and received a trophy.

Following Bender in Class 1, were Charles Besse of Escanaba and Ronald Wautier of West DePere.

Leaders in Class 2 were Arnold Anderson of Wells, Kenneth Person of Rapid River and Bill Perry of Marquette.

First three finishers in Class 3 were Harold Wallins of Escanaba, Richard Duchateau of Green Bay and Bob Bero of Escanaba.

First three in Class 4 were Carl Hazard of Green Bay, Douglas Oaks of K. I. Sawyer and Charles Vandersall of K. I. Sawyer.

Only 53 riders crossed the finish line in the 54 mile trail over rugged country. Movies of last year's run were shown at the Dutch Mill and trophies were presented to winners in each class.

George Brown expressed appreciation to dealers who donated prizes and to land owners who allow the riders to cross their property on the annual Big Chief run.

by J. R. Williams

MANISTIQUE

Mrs. John Strable (Minceff Studio)

Linda Thompson, John Strable Wed

Linda Kay Thompson, daughter of Mr. and Mrs. Edwin J. Thompson, of 440 Arbutus Ave., became the bride of John Thomas Strable, son of Mr. and Mrs. John Strable, 430 Oak St., Sept. 16 at a 2:00 p.m. nuptial Mass celebrated in St. Francis de Sales Church. Rev. Daniel Zaloga performed the double ring ceremony.

The wedding reception for 150 guests was held at the Fireside Inn from 3 to 5 p.m. Presiding at the tea table were Mrs. Mary Beck of Orlando, Fla., grandmother of the bride, Mrs. Richard Franzen of Orlando, Fla., aunt of the bride, and Mrs. Elmer Lundstrom of Manistique. Assisting, also, were Mrs. John Pelon of Manistique and Miss Linda Cuperus of Holland.

Home In Marquette
For going away, the bride wore a black and white checkered wool modified tent dress with banded hem and matching accessories.

Reception
The bride wore a floor-length gown of white sateen with bateau neckline and long sheer sleeves. Silk braid embroidered with seed pearls and tiny crystals adorned the fitted bodice of the gown and was repeated in two appliques on the bell shaped skirt. The detachable chapel-length train was attached to the waistline at the back with two self material ties. Her bouffant veil of French illusion fell from a modified portrait headpiece of re-embroidered alencon lace highlighted with crystal and seed pearls. She carried a cascade of tangierne carnations and trailing ivy.

The bride's attendants wore aqua floor-length sheaths of crepe which featured empire waists and organza coats, having long chiffon panels. Aqua double bow organza headpieces with silk illusion veiling completed their attire. They carried cascades of fall colored mums. The flower girl wore a floor-length gown of aqua crepe with silk ribbon accenting the empire waistline. She carried a basket of fall colored baby mums.

The bride's mother selected a silver blue brocade costume.

No Change
County Time Stays As Is

The Schoolcraft County Board of Supervisors voted unanimously Tuesday night to retain the present Eastern Standard or Central Daylight time. The action means clocks stay as they are in the county.

In addition to discussing the time change proposal, the board heard a request of Indian Lake Property Owners Assn., asking control of highway traffic in Hiawatha Township and to some extent Thompson Township, and regulation of traffic hazard from swimmers in the Indian River outlet from Indian Lake, at Copenhagen Bridge.

The requests were presented by Frank S. Hoholik and Donald E. Messier, who pointed out residents and property owners receive little service for tax dollars in the rural, though somewhat suburban area. No constable is employed by the township, Agner Dehlin, supervisor said.

During discussion Richard Rogers of Doyle Township suggested that a township park like Doyle's on Gulliver Lake might be developed to provide a suitable swimming place. The land around the Copenhagen bridge is owned by Mrs. J. L. LeDuc, it was reported.

Use of Hiawatha Township revenues in control of the problem was suggested in the discussion. The board named Leo DeMars, chairman, Leonard Walters and Richard Rogers to study the problem.

The proposal of WFRV for use of television channel 3 for telecasting commercials to serve more of the Upper Peninsula was endorsed by the board.

Med-Facility
A resolution was adopted extending the deadline for an interim zoning ordinance for 60 days and a resolution was adopted for application for federal funds for county planning.

Carlton Hubbard hospital administrator, was named to replace Walter Minor, Social Welfare director who has resigned to continue university studies, in authorization given for purchasing for the medical care facility and to act as agent of the county in matters relating to the federal grant for the facility.

The medical care facility building is scheduled to be completed Nov. 1. Blacktopping in the area has been completed.

A report of the county treasurer showed \$479,124.14 had been received for the construction project, including a state-federal grant of \$231,610.90. Expenditures to Aug. 31, 1967 were \$426,223.65.

The airport report showed that the county has an application before the Aeronautics Commission for matching funds for a hangar. Howard Hamdorf, successor to Dean Rhoads, was introduced and a recommendation was made approving his appointment as county resource agent here.

M. & L. S.
The salary of Harold Peters, tax director, was increased from \$5,000 to \$6,000 per year effective Oct. 1.

Announcement was made of a meeting at 7 p.m. Sept. 25 in the State Bank conference room relative to a hearing on the proposed abandonment of the M & L S Railroad.

A check of the federal funds which come to the county through its ownership of property for recreation purposes

Hospital

Admitted to Schoolcraft Memorial Hospital were Donald Edward Huida Blomquist, and Clifford Wagner. Discharged were Leo Cunningham, Randy King, Barbara Hoffmeyer, Ella Diller, and Elizabeth Sinethurst.

PERMANENT POSSESSION of the Morley-Murphy Co. sales trophy goes to the Escanaba area for its high sales percentage achieved three years in a row. Bob Snow, operations manager, Escanaba, (left, center) accepts the trophy from Phil Ziles, executive vice president, Green Bay. Participating in the event are department managers (from left) John Stoll, credit; Earl Delforge, plumbing and heating; Ernie Flath, hardware; Larry Gaultin, office; Claude Bohn, electrical; with John Stiles, president, Morley-Murphy Co., Green Bay. (Daily Press Photo)

Morley-Murphy Sales Trophy Won By Escanaba

For the third consecutive year the Escanaba sales area of Morley-Murphy Co. achieved the highest sales percentage during the firm's annual summer sales contest, and won permanent possession of the company sales trophy.

Presentation of the trophy was made in Escanaba on Wednesday evening by John Stiles, president, and Phil Ziles, executive vice president of Morley-Murphy, Green Bay.

In competition for the trophy each year are the Escanaba, Green Bay and Wausau area. Green Bay first took the trophy, followed by Wausau, and then the Escanaba area won for three years in a row.

Members of the sales staff are Fran Rogers, Sault Ste. Marie; Will Lange, Newberry; Art Dahlin and Dick McHenry, Marquette; Rene Kilpener, Houghton; Harold Nelson, Iron Mountain; Bob Prims, Gladstone; Charles Oslund and Tom McEniry, Escanaba.

SS North American Sinks In Atlantic

The Great Lakes cruise ship North American, which visited Escanaba so often on summer lake cruises lies on the bottom of the Atlantic today.

Loss of the passenger steamer Sept. 13 came as a shock to the many who have made Great Lakes trips aboard the former Georgian Bay Lines vessel.

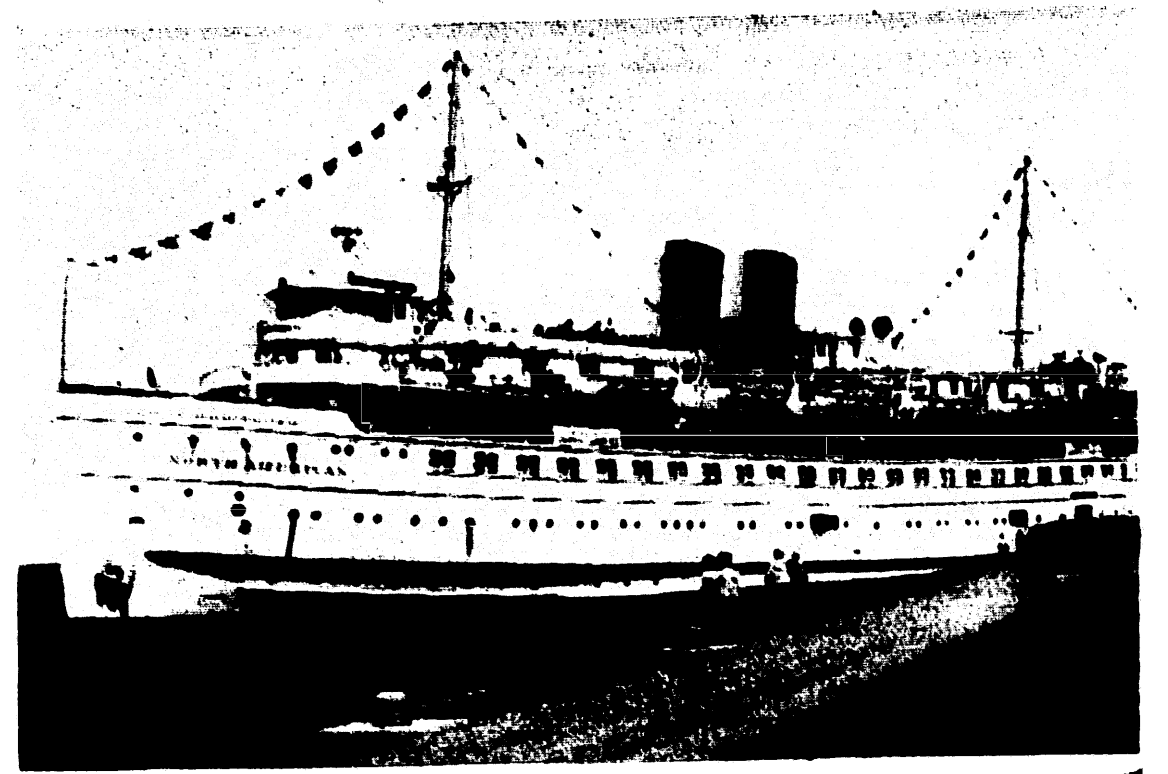

She sank in 200 feet of water 15 miles northeast of Nantucket Island while being towed down the coast to Piney Point Md., near Baltimore.

Georgian Bay Lines sold the North American four years ago to a group of Erie, Penn., businessmen who planned to use her on cruises out of Erie to Port Burwell, Ont., across Lake Erie.

That service failed to pay off and the bank which held a mortgage on the North American found itself with a boat on its hands, idle at Erie.

She went under the hammer at a federal auction last July 28 and was knocked down for \$32,000 to an agent representing the Seafarers International Union. The SIU intended her for a training ship for merchant mariners at Piney Point.

The North American, which for a half-century had carried travelers to ports throughout the Lakes and, in her later years, down the St. Lawrence

THE CRUISE SHIP North American at Ludington Park, Escanaba.

Seaway, began her last trip at the end of a towline.

A Great Lakes Towing Co. tug snaked her through the Welland Canal, across Lake Ontario and down the St. Lawrence to Montreal.

At Montreal a sea-going tug of McAllister Towing Co., the Michael McAllister, under Capt. Charles Shaw, took over the tow, out through the Gulf of St. Lawrence and down the New England coast.

Early reports said the North American was a victim of

heavy seas generated by Hurricane Doria, but Capt. Shaw reported the seas were moderate, with waves six to eight feet, when the North American made her final plunge about 4 a.m.

The McAllister held onto the towline as the North settled to the bottom. The heavy hawser did not break.

About noon, some eight hours after the North sank, Capt. Shaw was told the owners had abandoned her to the under-

The towline was cut and the McAllister headed for her home base at Norfolk, Va.

What caused the North to sink isn't clear.

Lunch Week

LANSING (AP)—Acting Gov. William G. Milliken has proclaimed the week of Sept. 24-30 as Community Theater Week and Oct. 8-14 as School Lunch Week in Michigan. He also designated Oct. 8 as Christopher Columbus Day in the state.

Traffic Victim Dies Wednesday

Jack Richard Grenfell, 38, of Rte. 1, Escanaba died at 7:30 a.m. Wednesday at St. Francis Hospital as a result of injuries suffered in an automobile accident Saturday, Sept. 16.

He was born April 7, 1929 in Escanaba and had resided here all of his life. Mr. Grenfell was employed by the Clairmont Transfer Co. and was a member of the Immanuel Lutheran Church and Delta Lodge 195, T. & A. M.

He is survived by his widow, the former Jean Palmgren of Rte. 1, Escanaba; two sons, Jack Richard Jr. and David Todd and one daughter, Shirley, all at home; his parents, Mr. and Mrs. William Grenfell of Escanaba; two brothers, Thomas and Gerald of Escanaba and one sister, Mrs. John Gucky Jr. of Escanaba.

Friends may call at the Anderson Funeral Home after 4 p.m. today and the body will be removed to the Immanuel Lutheran Church at 10 a.m. Friday where services will be conducted at 11 a.m. Rev. Roger Patrow will officiate and burial will be in Gardens of Rest Cemetery.

Dial A Hunt

Beginning Monday, Sept. 25 Wisconsin hunting information will be available on the Natural Resources Department's Code-a-phone. To get this information, simply dial area Code 608-266-2277. Hunting information will be available beginning at 4 p.m. Monday with the message to be available until noon on Wednesday, each week.

Venezuela's population has increased more than 50 per cent since 1950 to about 7.5 million inhabitants, according to the Encyclopedia Britannica.

McDonough Is Chamber Leader

Ray McDonough was elected president of the Escanaba Area Chamber of Commerce at a meeting of directors held Wednesday at the Sherman Hotel. McDonough is office manager of the Escanaba Division, Mead Corp. He will take office Oct. 1 with Donald Brandt, elected vice president, and Arthur C. Arch, re-elected treasurer.

Other board members who will serve the Chamber for the fiscal year beginning Oct. 1 are Gust Asp, Frank Bourke, August Brazeau, Ronald Breaux, George Harvey, Dr. William Hemes, Merton Jensen, Richard Marenger, Irving Olsen, Percy Rosemurgy, James Schultz and Thomas Straebel.

The board adopted a resolution expressing appreciation on behalf of the Chamber to the following retiring board members for their service during the past year: Emil Gafner, Kenneth Christensen, Guy W. Knutson and W. J. Lavolette.

The board asked the Michigan Department of Conservation to plant coho salmon in Delta County waters. Plantings have been successful in other areas attracting thousands of fishermen and their families for the salmon runs.

Retiring president Dr. William Hemes thanked the board members for their cooperation and welcomed newly elected members Donald Brandt, Merton Jensen, Irving Olsen, James Schultz and Thomas Straebel.

Hydronics Meet

EAST LANSING (AP)—Hot water heating and cooling engineers from Michigan industrial firms will meet at Michigan State University Monday for their second annual hydronics conference.

William Jennings Bryan made the Cross of Gold speech.

Three Men Fined On Duck Season Law Violations

Two Escanaba men and another from Rapid River have paid fines, court costs and liquidated damages totaling \$74.20 on conservation law violations in Michigan's special teal season. All pleaded guilty before Justice Ross Davis of Gladstone.

Arrests were made by Conservation officers and U. S. Fish and Wildlife agents.

Bernard Kulczynski, 22, of Box 195, Rapid River, who was arrested on the Stonington Peninsula, was charged with hunting migratory game without a plugged shotgun and also for killing a duck other than a teal. He paid a \$10 fine and \$7.30 costs on the first charge and a \$10 fine, \$5 liquidated damages for the duck and \$7.30 costs on the second charge.

Patrick Boddy, 23, of 427 S. 12th St., and Tom Jones, 17, of 1504 S. 13th St., each paid fines of \$5, liquidated damages of \$5 and court costs of \$7.30 for killing a duck other than a teal. Both were arrested in Portage Marsh.

Hermansville

Mr. and Mrs. William Eisenzoph are in Palatine, Ill. where they are visiting with her brother-in-law and sister, Mr. and Mrs. Edwin J. Upland and family.

Mrs. Earl Koenig, former resident of Hermansville, is a medical patient at Marinette General Hospital.

Mr. and Mrs. Arthur Kamrath of Escanaba were visitors at the home of their son-in-law, and daughter Mr. and Mrs. Harold E. Pipkorn.

It has been estimated that more than 75 per cent of the 3.7 million miles of roads and streets in the United States now are surfaced.

Briefly Told

All members of the Bay de Noc Chorus, SPEBSQSA, must attend an important rehearsal tonight at 8:01 at the Eagles Club.
